ORGANIZATIONAL PROFILE

We are IQVIA, The Human Data Science Company

Healthcare is an industry designed to help humans. As a global community, we continuously invest and commit to advancing human health. To deliver value and real outcomes. To rise to the challenge to find the next breakthrough by making the most of increasingly limited resources.

We are inspired by the potential and propelled by the possibilities. We share the vision to drive healthcare forward. To see how we can help accelerate progress and achievements. Others are developing these medical breakthroughs. We do our part by using breakthroughs in insights, technology and human intelligence to reimagine and deliver ways to help make them a reality.

It's bigger than better clinical trials. Or advances in technologies and analytics. Or faster insights. It's about unleashing the power of human data science. And that is why IMS Health and Quintiles have come together to be IQVIA, The Human Data Science Company.

Motivated by the industry we help, we are focused on providing solutions that enable life sciences companies to innovate with confidence, maximize opportunities, and, ultimately, drive human health outcomes forward.

With a twenty year presence in a country that is projected to be amongst the top three pharmaceutical markets in 2021 by YOY growth, IQVIA India takes pride in its contribution to the growth of the Indian life sciences industry. In parallel with the growth and development of the Indian healthcare industry, our clinical and commercial services have grown and expanded to encompass a wide portfolio today. We are committed to offering innovative business models tailored to suit the local and global aspirations of our customers in a dynamic healthcare landscape. We draw on the strength and depth of our global resources, deep domain expertise and local insights to help biotech, medical device and pharmaceutical companies, medical researchers, not for profit and government agencies, payers and other healthcare stakeholders deliver better health outcomes.

Our 11,000+ employees in India are drawn from backgrounds in life sciences, healthcare analytics, information technology and consulting that help us deliver services across clinical research, data management, lifecycle safety, medical writing, biostatistics, centralized monitoring, sales and marketing, primary intelligence, real world insights and commercial services.

GOALS OF INTERNSHIP

1. Mastering Technical Skills
2. Gaining Essential Background Knowledge
3. Perfecting Interpersonal Skills (Soft Skills)
4. Building a Network of Contacts

5. Develop ethic of professional responsibility as demonstrated in timeliness of reports and ability to maintain expected work load

SPECIALIZATION

We are broad in our outlook towards the business of Human Data Science. However, with a dash of brevity in scoping our specialization. Leaving everything else, we aspire for everything in the Human data Science specialization in :

- Hospital
- Clinical Research

- Public Health

Stakeholders:

- PHARMACEUTICAL MANUFACTURERS
- CONSUMER HEALTH
- EMERGING BIOPHARMA
- GENERICS MANUFACTURERS
- INVESTIGATORS
- MEDICAL TECHNOLOGY
- PATIENT ASSOCIATIONS
- PAYERS
- PROVIDERS
- PUBLIC HEALTH AND GOVERNMENT
- CUSTOMER PORTAL

SERVICES PROVIDED BY ORGANIZATION

EXPERTISE

Knowledge and experience are inherent to expertise. However, passion is the soul. Everything that we are good at, is simply because after a little while with knowledge and experience, passion takes over.

PUBLIC HEALTH

Work with the Government of India and state governments on various public health projects..

- **OPTIMIZE STUDY DESIGN**
- Clinical Development Strategies
- Clinical Trial Design

- R&D Management Consulting
- **RESOURCE R&D APPROACH**
- Full Service R&D Capabilities
- Functional Service Provider Capabilities
- **EXECUTE TRIALS WITH CONFIDENCE**
- Customized R&D Capabilities
- Early Clinical Development
- Phase IIb/III Study Delivery
- Global Laboratory Services
- Wearable's & Connected Devices
- **SPEED STUDY ENROLLMENT**
- Site Selection
- Site Relationships and Networks
- Patient Recruitment
- Patient Retention
- Investigator Information
- **NEW APPROACHES TO CLINICAL DEVELOPMENT**
- Virtual Trials

Departments visited

Public Health

- **Any projects undertaken other than dissertation**
Pradhan Mantri Jan Arogya Yojana
National Health Resource Repository
- **Reporting writing and analysis** of the data of National Health Resource Repository.
Quality of care assessment in Hospitals.
- **Impediments** -No such barriers
