CARE has been working in India for over 65 years, focusing on alleviating poverty and social exclusion. We do this through well-planned and comprehensive programmes in health, education, livelihoods and disaster preparedness and response. We also focus on generating and sharing knowledge with diverse stakeholders to influence sustainable impact at scale. Our overall goal is the empowerment of women and girls from poor and marginalised communities, leading to improvement in their lives and livelihoods. We are part of the CARE International Confederation working in over 90 countries for a world where all people live with dignity and security.

MAJOR ACHIEVEMENTS

- 01

20%

improvement in the identification and care of low birth weight new-born babies

- 02

40,000

households were covered through Briddhi to improve nutritional status of 3-6-year-old children

- 03

60%

reduction in post-partum haemorrhage, better management of birth asphyxia and sustained improvement in facility-based care in Bihar

- 04

2,792

children of 0-5 years of age have better nutritional statuses because of the contribution of volunteers in three districts of Madhya Pradesh Nutrition Project (MPNP)

- 05

10,611

Kala Azar cases in Bihar in 2013 were reduced to 5,269 by September 2015

453

Panchayats, 306 DOTS providers were trained under the Treatment, Adherence and Follow-up Multi-Drug Resistant (MDR) Tuberculosis project, with 1505 patients receiving counselling support along with their families

Delivering healthcare to over a billion people is a very complex challenge. CARE India works in close collaboration with State and Central Government and other partner organisations to secure accessible and quality maternal and child healthcare among marginalised communities. We work towards identifying the root causes of healthcare challenges, provide innovative solutions, and help implement secure and quality healthcare services in India. We promote essential newborn care and immunisation, reduce malnutrition, prevent infant and maternal deaths and protect those affected by Tuberculosis (TB). CARE India works closely with its partners to achieve good healthcare for everyone.
