ORGANISATION REPORT:

“MEDANTA- THE MEDICITY, GURGAON”

Vision

To have an advanced multispecialty medical institution which not only treats, but trains and innovates too, while providing international standards of technology, infrastructure, critical care, and a fusion of traditional Indian and modern medicine. All at one-tenth the cost.

Mission

To deliver world class, holistic and affordable healthcare and to build a dynamic institution that focuses on the development of people and new knowledge.

Values

- Integrity and Courage: Maintaining the highest ethical standards through putting the patient's interests ahead of the institution and demonstrating the courage to do only what is right.
- Leadership and Excellence: With a commitment to deliver the best outcome in everything we do through exemplary action and behavior.
- Compassion and Service: Fostering a culture where every one of us is committed to care for patients and their caregivers beyond our duties.
- Collaboration, Learning and Innovation: Promote teamwork and collaboration, welcome change and creativity to encourage innovation and seek better ways to achieve our goals.
