INTERNSHIP REPORT

Narayana Health is headquartered in Bengaluru, India, and operates a network of hospitals across the country, with a particularly strong presence in the southern state of Karnataka and eastern India, as well as an emerging presence in northern, western and central India. Our first facility was established in Bengaluru with approximately 225 operational beds and we have since grown to 23 hospitals, 7 heart centres, 19 primary care facilities across India and an international hospital in the Cayman Islands. The group now features over 6,000 operational beds through a combination of greenfield projects and acquisitions.
