Jeevan Rekha Superspeciality Hospital is located in Jagatpura, Jaipur. The development of the institute reflects our commitment to filling the large gap that exists between demand and availability of Emergency and Critical Care Services in Rajasthan state in general and Jaipur in particular. Lethal road traffic accidents, Poisoning, Burns, epidemics like Malaria, Dengue, Scrub Typhus and Swine Flu in our state have become major killers. The unwarranted and untimely death of our citizens can be markedly reduced by optimum treatment during golden hours. Need for high technology intensive and motivated emergency medical services don't need over emphasis. Our zeal to serve these patients and prevent mortality by innovation advanced technology is well mirrored by Jeevan Rekha Superspeciality Hospital. We resolve to serve the young, the old, the child, the neonate and a pregnant woman and all economic strata of the society. We are committed to providing such modern medical and health services at most affordable cost. The services will be 24X7, by most dedicated trained doctors backed by motivated, able nursing and other paramedical staff.

Through continuous training and research, we aim to make difference to the outcome in these critically sick patients. Adoption of the recent-most protocols, adherence to international designs and recommendations reflects our hunger and desire to offer the best to people we serve.
