Mission

IIHMR University is dedicated to the improvement in standards of health through better management of health care and related programmes. It seeks to accomplish this through management research, training, consultation and institutional networking in a national and global perspective.

About Organization

Established in 1984 in Jaipur, IIHMR is the first of its kind in India, with attention solely focused on health systems management. Recognized by Department of Science & Technology, Ministry of Finance and Government of India as a Research Institution. Accredited to International Hospital Federation & Association of University Programmes in Health Administration.

An Exclusive Health Research and Postgraduate University

IIHMR Jaipur has now become the IIHMR University. The IIHMR University is a specialized Research University in management research, postgraduate education and training exclusively in the health sector. The University aims to generate new knowledge and technologies to provide evidence and inputs for developing effective policies and health interventions and strategies. The origin of the IIHMR University has its roots in pioneering and significant contribution of Institute of Health Management Research (IIHMR), Jaipur in the last three decades to policy and program management research, and capacity development in health and hospital management in India and South-East Asia, which has enabled it to attain the status of a university. The IIHMR University has a mission to improve the standards of health through better management of health care and related

programs through management research, education, training and institutional networking in a national and global perspective in the health sector.

Over the last 30 years, IIHMR, working as a WHO Collaborating Centre for District Health Systems and designated as an Institute of Excellence by the Ministry of Health and Family Welfare, has played a major role in promoting and conducting health policy and program management research. The Institute has been instrumental in a paradigm shift in the management of health care and hospitals in India. A critical mass of professionally trained health and hospital managers has been produced by IIHMR. For its contribution to management education, it has gained several Leadership Awards. In addition, IIHMR has become a major destination for training and capacity development in leadership and strategic management, hospital management, disaster management, quality management, project management, health management information systems, and health economics and finance.

Collaborating Institutes and Universities

World Health Organization; SEAPHEIN; Johns Hopkins University, USA; Chester University, UK; Mahidol University, Thailand; SAARCTB Institute; The UNION; Afghan Public Health Institute, Kabul; BPKoirala Institute of Public Health, Nepal.

The Institute undertakes training, research and consultancy in health management in close collaboration with international organizations such as UNFPA, UNICEF, WHO, World Bank, ODA, DANIDA, KFW & GTZ, NORAD, CARE and USAID. Working for Ministry of Health & Family Welfare (GOI), Planning Commission, Indian Council of Medical Research, state governments and others. International Linkages collaborated with University of North Carolina, USA to offer masters programme to candidates from South-Asia.

Organization Structure

Founded in 1984 in Jaipur, the Institute of Health Management Research (IIHMR, University) (formerly known as Indian Institute of Health Management Research) has made phenomenal contributions to both research and education in the area of management of health services achieving a pride of place in health management, planning and research at the national and international levels

The role of the IIHMR University is being increasingly realised and appreciated in developing health management as an important discipline for improving the efficiency,

effectiveness and quality of health care. The IIHMR University has consolidated its focus on research in health policy and programmes. Being a WHO Collaborating Centre and recognised as an University of Excellence, the IIHMR University has been able to promote research in policy development and programme evaluation. We have extended our scope of work to several states. We are now working in most of the major states in India.

Thrust Areas

IIHMR University is engaged in policy issues, program planning and management and capacity building in the health and related sectors. It undertakes research, training and consulting activities in the following areas:

- Public Health and Primary Health Care
