ORGANISATIONAL PROFILE

EHCC, ETERNAL HOSPITAL

1. EHCC Hospital, Jaipur is the state-of-the-art tertiary care hospital in Rajasthan embarking on the mission of redefining patient care with international clinical excellence and advanced technology. EHCC Hospital is one of the most advanced tertiary care facilities under the visionary initiative of Dr. Samin K Sharma & his wife Mrs. Manju Sharma boosted with great expertise in healthcare by leading clinicians, astute management team supported by highly trained clinical and non-clinical staff.

2. EHCC Hospital states newest addition of tertiary care hospital which brings together the state-of-the-art medical infrastructure, cutting edge technology and highly integrated and comprehensive information system along with quest for exploring and developing newer therapies. To serve the community at large they have energetic, enthusiastic, forward looking, devoted and able technical expertise of consultants from within & outside the country. Eternal Hospital is backed up by the trained supportive staff, efficient system with modern procedures in affiliation with Mount Sinai Medical Centre, New York with an aim to cater the needs of Rajasthan and people across the globe promoting the international medical tourism.”

VISION

3. A Centre of excellence in area of medicine with highest international standard at affordable cost for the community around the globe.

MISSION

4. To redefine healthcare by improving outcomes and experience of patients through cutting edge research and personalized clinical care including innovative, preventive, diagnostic, therapeutic and rehabilitation services

HOSPITAL SPECILISATION

5.

- Interventional Cardiology
- Cardio Thoracic vascular Surgery (CTVS)
- Neurosurgery
- Pediatric
- Critical Care
- Preventive Cardiology & Internal Medicine
- Endocrinology
- Neurology
- Nephrology
- Orthopedics
- Oncology
- Oncology Surgery
- Obs. &Gynecology
- Pulmonary & Sleep medicine
- Nuclear Medicine
- Anesthesia
- Radiology
- Dietetics
- Physiotherapy
- Pathology
- Blood Bank
- Dental

EHCC – The Leadership Team

6.

A QUICK TOUR

7.

- 225 Bedded Multi Specialty Hospital (Operational Beds – 180).
- Modular “Class 100” Operation Theatre.
- 24 x 7 hr. Cath Lab.
- 24 x 7 Emergency with fully equipped ALS/BLS Ambulances.
- Blood Storage Bank.
- Nuclear Medicine (Gamma Camera with Stress Thallium)
- Radio-Diagnosis & Imaging Sciences (MRI, CT Scan, CT Angiography, Bone Densitometry, X-Ray).
- Clinical Pathology – Bio Chemistry & Microbiology
- Pneumatic chute for quick sample transportation.
- Transfusion Medicine.
- Non Invasive Cardiology (Echo, TMT etc.)
- Environment friendly: Use of Solar Energy, Green Building & Recycled Water.
- Café Lounge.
- Library
- Seminar Hall& Conference Room.

SALIENT FEATURES:

8.

- (a) Largest Cardiologist Team in Private Sector in the State to perform Complex Cases.
- (b) Contribution of 80 Critical Care Beds to the State – Rajasthan is having scarcity of critical care beds and people are dying without availability of critical care beds at the emergency and when it is required. EHCC is giving 80 critical care beds including Medical, Surgical, Cardiac Care, CT Recovery etc.
- (c) Cath lab - EHCC consists of 2 state-of-the-art Cath Labs that house the most advanced technology including bi-plane flat panel imaging, which allows for more images with less contrast dye usage, and magnetic catheterization. Have facility to show the live cases at auditorium for medical fraternity.
- (d) Treatment in Golden Hours - EHCC believes in Rapid Action and focused care to give best results for heart attack, brain attack and trauma because we believe that needle time is important.
- (e) Modular/Laminar Flow “Class 100” Operation theatres with HEPA filter and zero infection level.
- (f) Availability of Gama Imaging, Nuclear medicine for cardiac treatment.

- (g) Pneumatic Chutes – first time introducing Pneumatic Chutes. It is a system placed at sample collection counter and nursing stations. It is a suction operated system and supports to send collected samples directly to laboratory. The system reduces manpower, infection possibilities.
- (h) Separate in and out system for sterile and non-sterile items is also an infection controlling measure.
- (i) Steam disinfection system for infection free instruments.
- (j) Minimum involvement of attendants and patients. Video briefing for attendant's information and counselling.
- (k) EHCC is establishing a Research Department to evaluate delayed recovery of admitted patients, patients in Critical Areas, infection cases after surgery etc. A team of senior doctors will audit the surgery and treatment results. Team of Mount Sinai Hospital, USA will be available for live Audio/Video advises.

9. Eternal Heart Care Centre & Research Institute being a truly International Standard hospital has procured the latest equipment and technology for better results and patient outcomes. EHCC has recently procured its 2nd Cath lab which is the latest one "Phillips FD20" which can perform a full spectrum of cardiac and vascular interventions. It combines a large field of view and high resolution flat detector with advanced diagnostic and 3D interventional tools – all seamlessly integrated in the clinical workflow of a mixed lab.

- (a) Advanced interventional tools for vascular and PTCA procedures.
- (b) Sharp, crisp visualization of small details and objects during cardiac and vascular interventions.
- (c) Dose Wise offers low X-ray dose and excellent image quality as compared to conventional cath labs which is an advantage to both for a performing cardiologist and patient.
- (d) Compact design provides full patient access and supports steep projections.
- (e) Other Equipment are as follows:
 - (i) 3-D Mapping system for EP Study
 - (ii) Philips MP-20 patient meter
 - (iii) Arjohuntleigh E-8000 fully automated patient beds

FACILITIES

10. Total environmental control with proper treatment of air and water, well provided waiting space, sophisticated and well stocked pharmacy and facilities for communication and refreshment enhances the patient comfort. EHCC is supported by state-of-the art medical gas system, central sterile supply, laundry and full backup power generation.

11. Supporting most modern healthcare we adhere to stringent infection control, environment protection, biomedical waste disposal, sewage treatment and rain water harvesting. Currently the hospital is having 225 beds devoted for the patient comfort which includes ICU's, Economy Wards, Semi-private Rooms, Private/Deluxe Rooms and Super-Deluxe/Suite Rooms.

12. Eternal Heart Care Centre & Research Institute, Jaipur continues creating a world class integrated health care delivery system, entailing finest medical skills combined with compassionate patient care.

ABOUT NURSING DEPARTMENT:

13. Nursing encompasses autonomous and collaborative care of patients of all ages, families, groups and communities, sick or well and in all settings. It includes the promotion of health, prevention of illness, and the care of ill, disabled and dying people.

14. In any hospital, nurses are on the frontlines of administering and evaluating patient's treatment. Efficient nurses form the backbone of any successful hospital.

15. The most important role of a nurse is to advocate and care for the patient's they are responsible for and to support them through health and illness. However, they have various other responsibilities, which include:

- (a) Record medical history and symptoms
- (b) Collaborate with team to plan for patient care
- (c) Advocate for health and wellbeing of patient
- (d) Monitor patient health and record signs
- (e) Administer medications and treatments

- (f) Operate medical equipment
- (g) Perform diagnostic tests
- (h) Educate patients about management of illnesses
- (i) Provide support and advice to patients

ORGANOGRAM OF NURSING DEPARTMENT:
