ABOUT IIHMR

The IIHMR University is a specialized Research University in management research, postgraduate education and training exclusively in the health sector. The University aims to generate new knowledge and technologies to provide evidence and inputs for developing effective policies, health interventions and strategies.

The origin of the IIHMR University has its roots in pioneering and significant contribution of Institute of Health Management Research, (IIHMR) Jaipur in the last three decades in policy and program management research, and capacity development in health and hospital management in India and South East Asia.

World Health Organization designated IIHMR as a WHO Collaborating Centre for District Health Systems based on Primary Health Care for its significant contribution in strengthening health systems by promoting and conducting health policy and program management research and capacity building. The Ministry of Health and Family welfare, Government of India identified it as Institute of Excellence for training and capacity building. A critical mass of professionally trained health care, hospital, rural and pharmaceutical managers has been produced by IIHMR to better manage health systems. The University has been instrumental in a paradigm shift in management of health care programs and hospitals in India.

For its significant contribution in health, hospital, rural and pharmaceutical management education, it has been awarded several Leadership Awards/Best sectoral B school. In addition, IIHMR has become a major destination for training and capacity development in leadership and strategic management, hospital management, disaster management, quality management, project management, health management information systems, health economics and finance.

Mission Statement:

IIHMR University is dedicated to the improvement in standards of health through better management of health care and related programmes. It seeks to accomplish this through management research, training, consultation and institutional networking in a national and global perspective.

Collaboration

The University has been instrumental in setting up collaboration and networking globally with various national and international organizations and universities to promote public health education in the health sector. We take pride in having technical tie-ups with these prestigious institutions and organizations.

Working together as partners, disseminating information and sharing knowledge at the national and global levels are the fundamental ethos of the Institute. Emphasis has been given to

networking with prestigious universities and organizations at the international and national levels.

World Health Organization (WHO)

IIHMR is a WHO Collaborating Centre for District Health System Based on Primary Health Care for its excellence in health management research, training and educational programs. As the collaborating centre of WHOSEARO, the Institute works in the areas of organization and management of the health system, strengthening the district health system, quality management in health care, operations research, and health sector reforms.

South-East Asia Public Health Education Institution Network (SEAPHEIN)

South-East Asia Public Health Education Institution Network (SEAPHEIN) has been created by the WHO South-East Asia Regional Office to promote collaboration and sharing of information and knowledge among the member countries in the Region in pursuit of strengthening public health education and training. IIHMR is the founding and an active partner of the network and has signed agreements for collaboration with various institutions in SEAR countries to promote capacity building in public health, management and joint collaborative research.

India Public Health Education Institution Network (IndiaPHEIN)

To promote public health education in India, India Public Health Education Institution Network (India PHEIN) has been developed and promoted under the stewardship of WHO-SEARO. The Institute hosts the Secretariat of India PHEIN and plays a leading role in establishing the network to strengthen public health education in India.

NIHFW

IIHMR and NIHFW have agreed to promote cooperation in education, training and research. The areas of co-operation include joint training; research; visits by and exchange of scholars, teachers and other staff; exchange of students for long and short term programs; exchange of research materials (reports, information, published papers etc.); and sharing of information through video conferencing.

The Afghan Public Health Institute (APHI)

The Afghan Public Health Institute (APHI), Ministry of Public Health, Afghanistan and IIHMR Jaipur have agreed to work together to promote management education, research and training in the health sector in Afghanistan.

ACTD Afghanistan

ACTD is a registered non-profit, non-political and non-governmental organization working for the development and transformation of the civil society in Afghanistan. ACTD was established in 2007 by a group of Afghan professionals to offer research, training and consultancy services in order to develop practically applicable knowledge.

IbnSina, Kabul, Afghanistan

To establish and strengthen the capacity of the NGOs and the employees of the Government of Afghanistan, IIHMR has signed an agreement with IbnSina Afghanistan and working together to provide training in important health management areas, such as health policy planning and management, health care financing, policy for HIV/AIDS, project planning, implementation monitoring and evaluation, quality assurance and hospital management in Afghanistan

SAARC

The IIHMR and the SAARC Tuberculosis and HIV/AIDS Centre (STAC) have technical tie-up for conducting training in the SAARC countries. The Institute has been instrumental in providing technical support to the STAC several trainings on Leadership & Strategic Management in SAARC region.

Gulf Medical University (GMU), Ajman, UAE

IIHMR and Gulf Medical University (GMU), Ajman, UAE have agreed to launch various academic programs and short-term courses in healthcare management and other related areas in UAE. GMU is recognized as a standard bearer of excellence in medical education in the Gulf region delivering high quality medical education and training to professionals from 54 nations. The two organizations will jointly develop various education courses in Hospital Administration and Healthcare Management.

SUPBIOTECH, Paris, France

The collaborative arrangement with the SUPBIOTECH, Paris is aimed at the exchange of faculty and students and development of special programs and internships. The collaboration calls for research and degree programs and conferences and workshops to be offered and conducted jointly.

University of Chester

IIHMR and the University of Chester have signed a MoU for cooperation to enhance academic and research opportunities for the staff and students and also to develop cultural linkages between both the institutions in the field of public health.

B.P. Koirala Institute of Health Sciences (BPKIHS), Nepal.

To establish educational affiliation between the two organizations, the Institute has signed a Memorandum of Understanding with B.P. Koirala Institute of Health Sciences (BPKIHS), Nepal. The major areas of agreement include advice and consultancy on structural, academic, policy and procedural matters related to the establishment of a new School of Public Health, partnership to support the development of School of Public Health, support in curriculum development in public health, exchange of faculty and training of faculty and staff in public health, participation and support in teaching training activities, student exchange, collaboration in research activities, collaboration in service and public health policy activities etc.

CORE ACTIVITIES

Research

In the area of research the IIHMR University is contributing to the development of health and population policies, strategies, programme monitoring, evaluation and generation of new knowledge. Over the years there has been an expansion in the nature and scope of projects and research studies undertaken by the IIHMR University. The range is wide; from studies involving survey and data generation to exploratory and impact studies of health services and programmes.

The IIHMR University entered into policy research and development in a major way, influencing policy making at the state and central government levels. Some of the projects are interpretative in nature and have come up with new interpretations of ground reality.

Training

Developing managerial and leadership skills at various levels in health care, including hospitals, is an important mission of the IIHMR University. The IIHMR University capacity building programme has laid particular emphasis on strengthening technical and managerial capacity building of programme officials, NGOs and researchers working at different levels in India and other countries in the South- Asia region. Over the years, it has acquired the distinction of an apex training University in the country.

Teaching

The educational programs at IIHMR are top ranking sectoral business management programs in the country. The students of IIHMR have made immense contribution to strengthening and improving the management of the health sector in India as well as at the international level. The graduates of IIHMR have made a phenomenal difference and paradigm shift in effective management in the health sector. The alumni of IIHMR are placed in highly reputed hospitals, healthcare organizations, and pharmaceutical companies, consulting organizations in India and abroad and also in various state governments.

IIHMR, Jaipur was the first to introduce a postgraduate program in hospital and health management in India. The course was started in the year 1996. IIHMR has now been established as the IIHMR University, Jaipur. In this academic session, the IIHMR University will offer MBA Hospital and Health Management, MBA Pharmaceutical Management and MBA Rural Management.

IIHMR has introduced Masters in Public Health (MPH) in collaboration with the Johns Hopkins University, Baltimore, USA, a first of its kind program in India. The course is conducted jointly and the degree will be awarded by the Johns Hopkins University, USA. PhD of the IIHMR University is offered to impart hospital Pharmaceutical, Rural and healthcare research edge to its participants.
