Introduction

PRIME HOSPITALS HYDERABAD

History:

Prime Hospitals first opened its doors as a polyclinic, “Prime Clinics” in 2006 at Ameerpet, Hyderabad, (Telangana) with just over 10 consultants. With cutting-edge approach, Prime Clinics grew progressively leading to the establishment of Prime Hospitals, Ameerpet, its first full-fledged 140-bed Multi- Specialty Hospital, in 2007. Following an increasing demand for its quality healthcare services, Prime Hospitals further expanded to establish Prime Hospitals, Kukatpally in 2009.

Over the years, Prime Hospitals has evolved to become a Multi-Specialty Hospitals with breakthroughs in Emergency Care, Cardiac Procedures, Orthopaedics & Joint Replacements, NeuroCare, Diagnostic and Interventional Services, Women’s Services and many more. As one of the leading healthcare providers in this part of the country, patients at Prime Hospitals receive advanced diagnosis and treatment for the most acute clinical conditions.

With an aim to provide ethical care to patients while allowing specialists to practice in a comfortable environment, Prime Hospitals strives to offer best-in-class technology and facilities on par with international standards to ensure world-class healthcare to all the patients.

Earlier, hospital was known as the Mythri Hospital, but renamed it as Prime Hospitals because "Prime" symbolizes the location of the hospital, the quality of their services and the expertise of their faculty. Hospital is actively involved in social service through Rajiv Aarogyasri services.

Hospitals vision is to deliver world class health care with a sensitive focus by creating an institution committed to the highest standards of medical and service excellence, patient care, scientific knowledge and motivational approach.

The mission of creating unparalleled standards and outcome. Their aim is to be first in care providing as well as in patient's choice of home for care.

Mission

To provide ethical, compassionate and affordable healthcare to all

Vision

Treat the sick with passion and compassion encompassing all people and advancement

Quality Policy

- To realize the hospital's vision and mission
- To introduce quality awareness in all its services and ensure continuous monitoring and improvement of quality services

Aarogyasri scheme

Aarogyasri Health Care Trust is setup by the Government of Andhra Pradesh for the implement of Andhra Pradesh for the implementation of Rajiv Aarogyasri Community.

The hospital Prime is also under this scheme of Trust. Prime is following all the instructions as well as fulfilling the criteria to be the follower of Aarogyasri Health Care Trust.

Rural population of state, majority of whom are farmers, are not having access to advanced medical treatments and are silent sufferers of ill health. This is truer in case of diseases related to heart, kidney, brain, cancer and injuries due to domestic accidents and burns. While the Government is in the process of adequately strengthening the health institutions for basic health care, lack of specialist doctors and equipments for treatment of serious diseases has created a wide gap between the disease load and the capacity of the Government hospitals to serve the poor. These though available in corporate sector catering mainly to the affordable sections of society and are beyond the reach of poor families living in villages. Because of this gap poor patients are constrained to go to private hospitals for treatment and in the process incur huge debts leading to sale of properties and assets or are, sometimes, left eventually to die.

Keeping above scenario in the mind, the government in an effort to assist the Below Poverty Line families (BPL) has decided to introduce health insurance for treating the dreaded diseases. In order to facilitate the effective implementation of the scheme, the Government has set up *Aarogyasri Health Care Trust* under the chairmanship of Hon'ble Chief Minister. The trust in consultation with the specialists in the field of insurance and medical professionals has devised a tailor made insurance scheme-The Rajiv Aarogyasri Community Health Insurance Scheme. The Star Health and Allied Insurance Co. Ltd, has been selected through a competitive bidding process to implement the scheme on Phase II w.e.f. 05/12/2007, in the three most backward district of Andhra Pradesh viz., West Godavari, Chitoor, Rangareddy and Nalgonda. Government has also decided to pay entire premium for this year.
