

SUMMER INTERNSHIP

Watershed organization trust chainpur (WOTR)

Established in 1993, WOTR is a non-profit organization. Our goal is to ensure water and food availability, along with livelihoods and income security – to support the sustainable growth and well-being of vulnerable and disadvantaged communities in rural India.

Brief History- Jiwi Daah Hasa “Means” (Life – Water – Soil): -

When the rainwater flows from the rich to valley directly into the river, and the water carries the soil along with it. Due to which the water level goes down. Through Jiwi Daah Hasa, we can save water and soil by conserving soil water and building related structures, which maintains moisture in the fields and can be cultivated better.

Vision – To make the life of the rural community resilient and sustainable, to improve the business of the farmers, as well as to enjoy the life of the villagers to a fuller quality within the ecosystem.

Mission – WOTR aims to end major causes of rural poverty by rejuvenating ecosystems and building community resilience to climate change.

Strength

It's vision

Globally recognised

Provides employment opportunity in rural area

Weakness

Turnover of staff

Field staff lack technical knowledge.

Opportunity

It is working to conserve soil, water, and life so people support anywhere.

Threats

Entering another NGO
Lower Participation.
Climate change

Practical Exposure:

practical knowledge is gained by doing things.
Practical knowledge guarantees that everyone do something instead of simply knowing how to do

Theoretical understanding:

It is helpful to understand the fundamental concept
It can be recorded and share generation to generation

Learning and value addition

NGO working process, Communication with community, Work with communities, Team- work, practical understanding, about MGNREGA, Watershed, Mango Plantation, how to work SHGs

Name: Pramila Kumari

Roll No.: IIHMR – U/10/2022-24/2024

Organization Mentor Name: Mr. Mritunjay Kumar Mahto

Faculty Member Name: Dr. Ratna Verma

Stream: MBA-Development Management

Title of the poster: Watershed Implementation

Suggestion to the organization:

Need to meet one to one with community to achieve the desired goal
Need to hire staff
Staff need to be paid on time

Key

challenges:-
Transportation
Electricity
Network issue
Food

Usefulness of internship

Usefulness of internship Helps to build communication skill
Teaches team –work
Computer proficiency
Helps to enhance skill level
Helps to strengthen CV.
We come to know Organization work Pattern closely.
Helps to choose desired career option
Helps to gain confidence

Organization Structure
