

Organization- Regis Healthcare

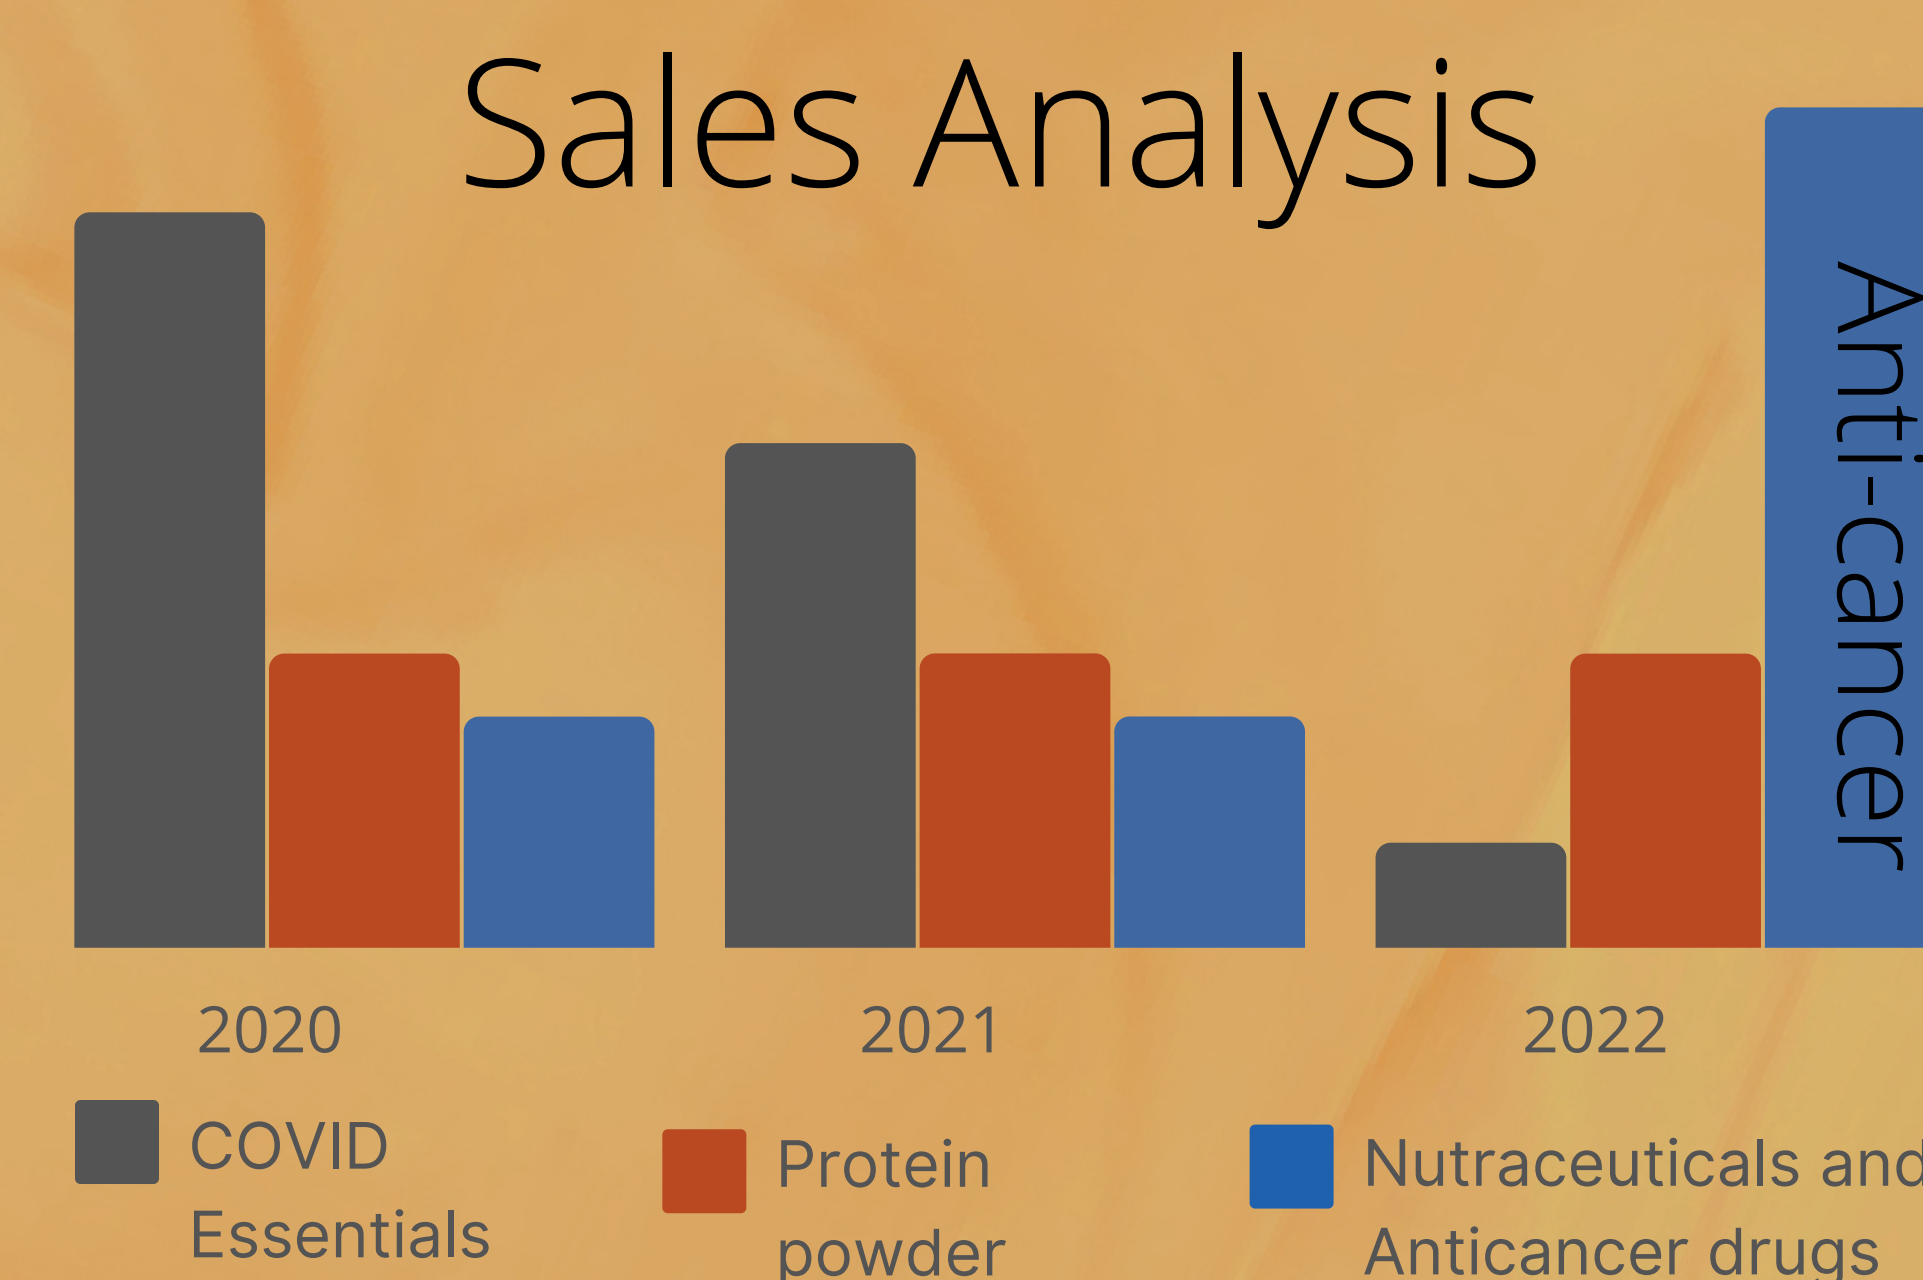

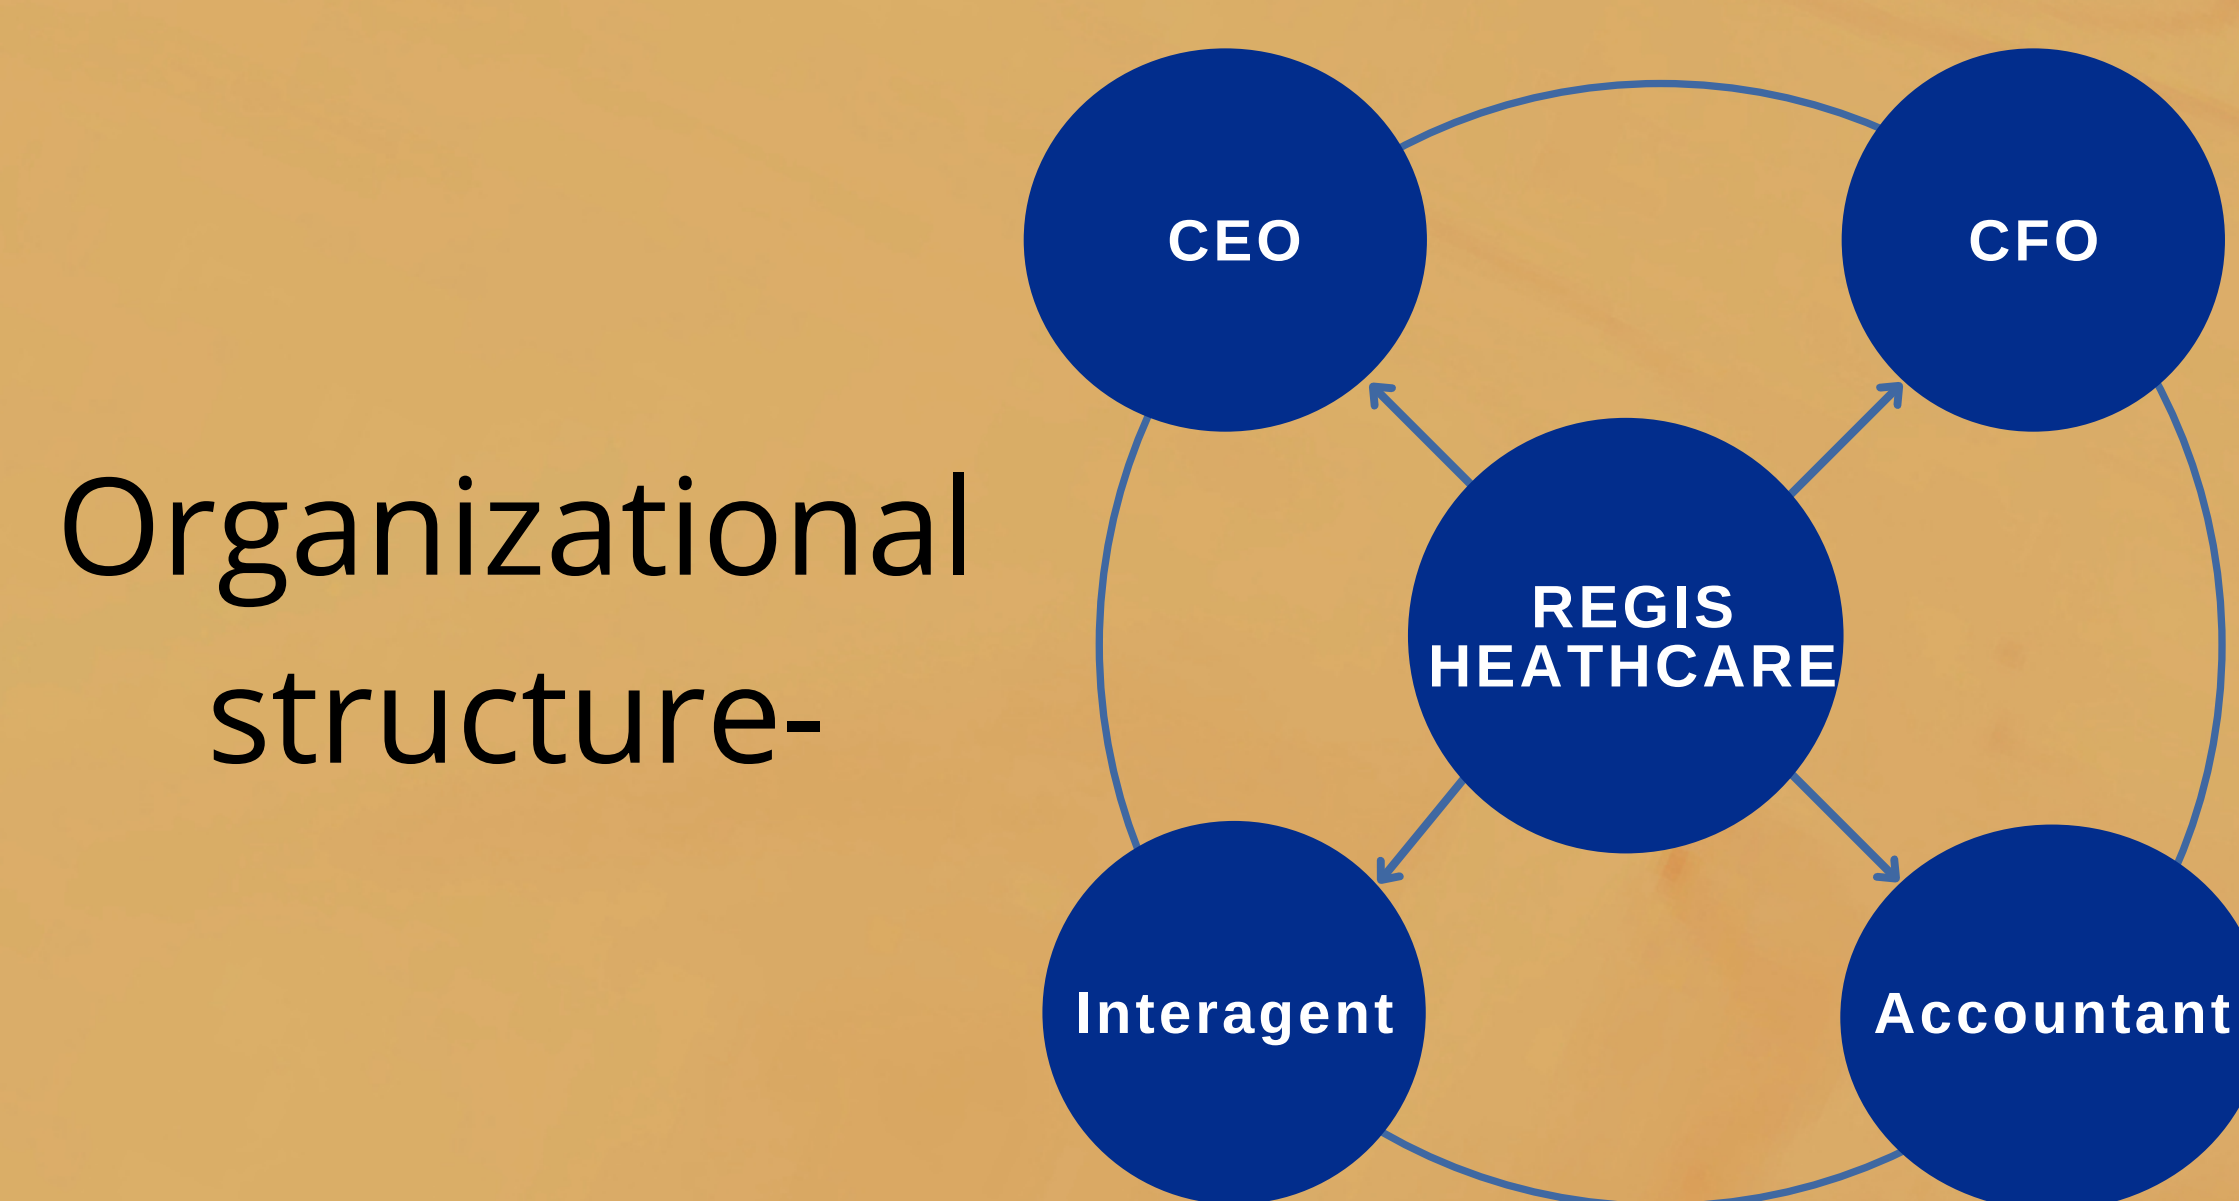

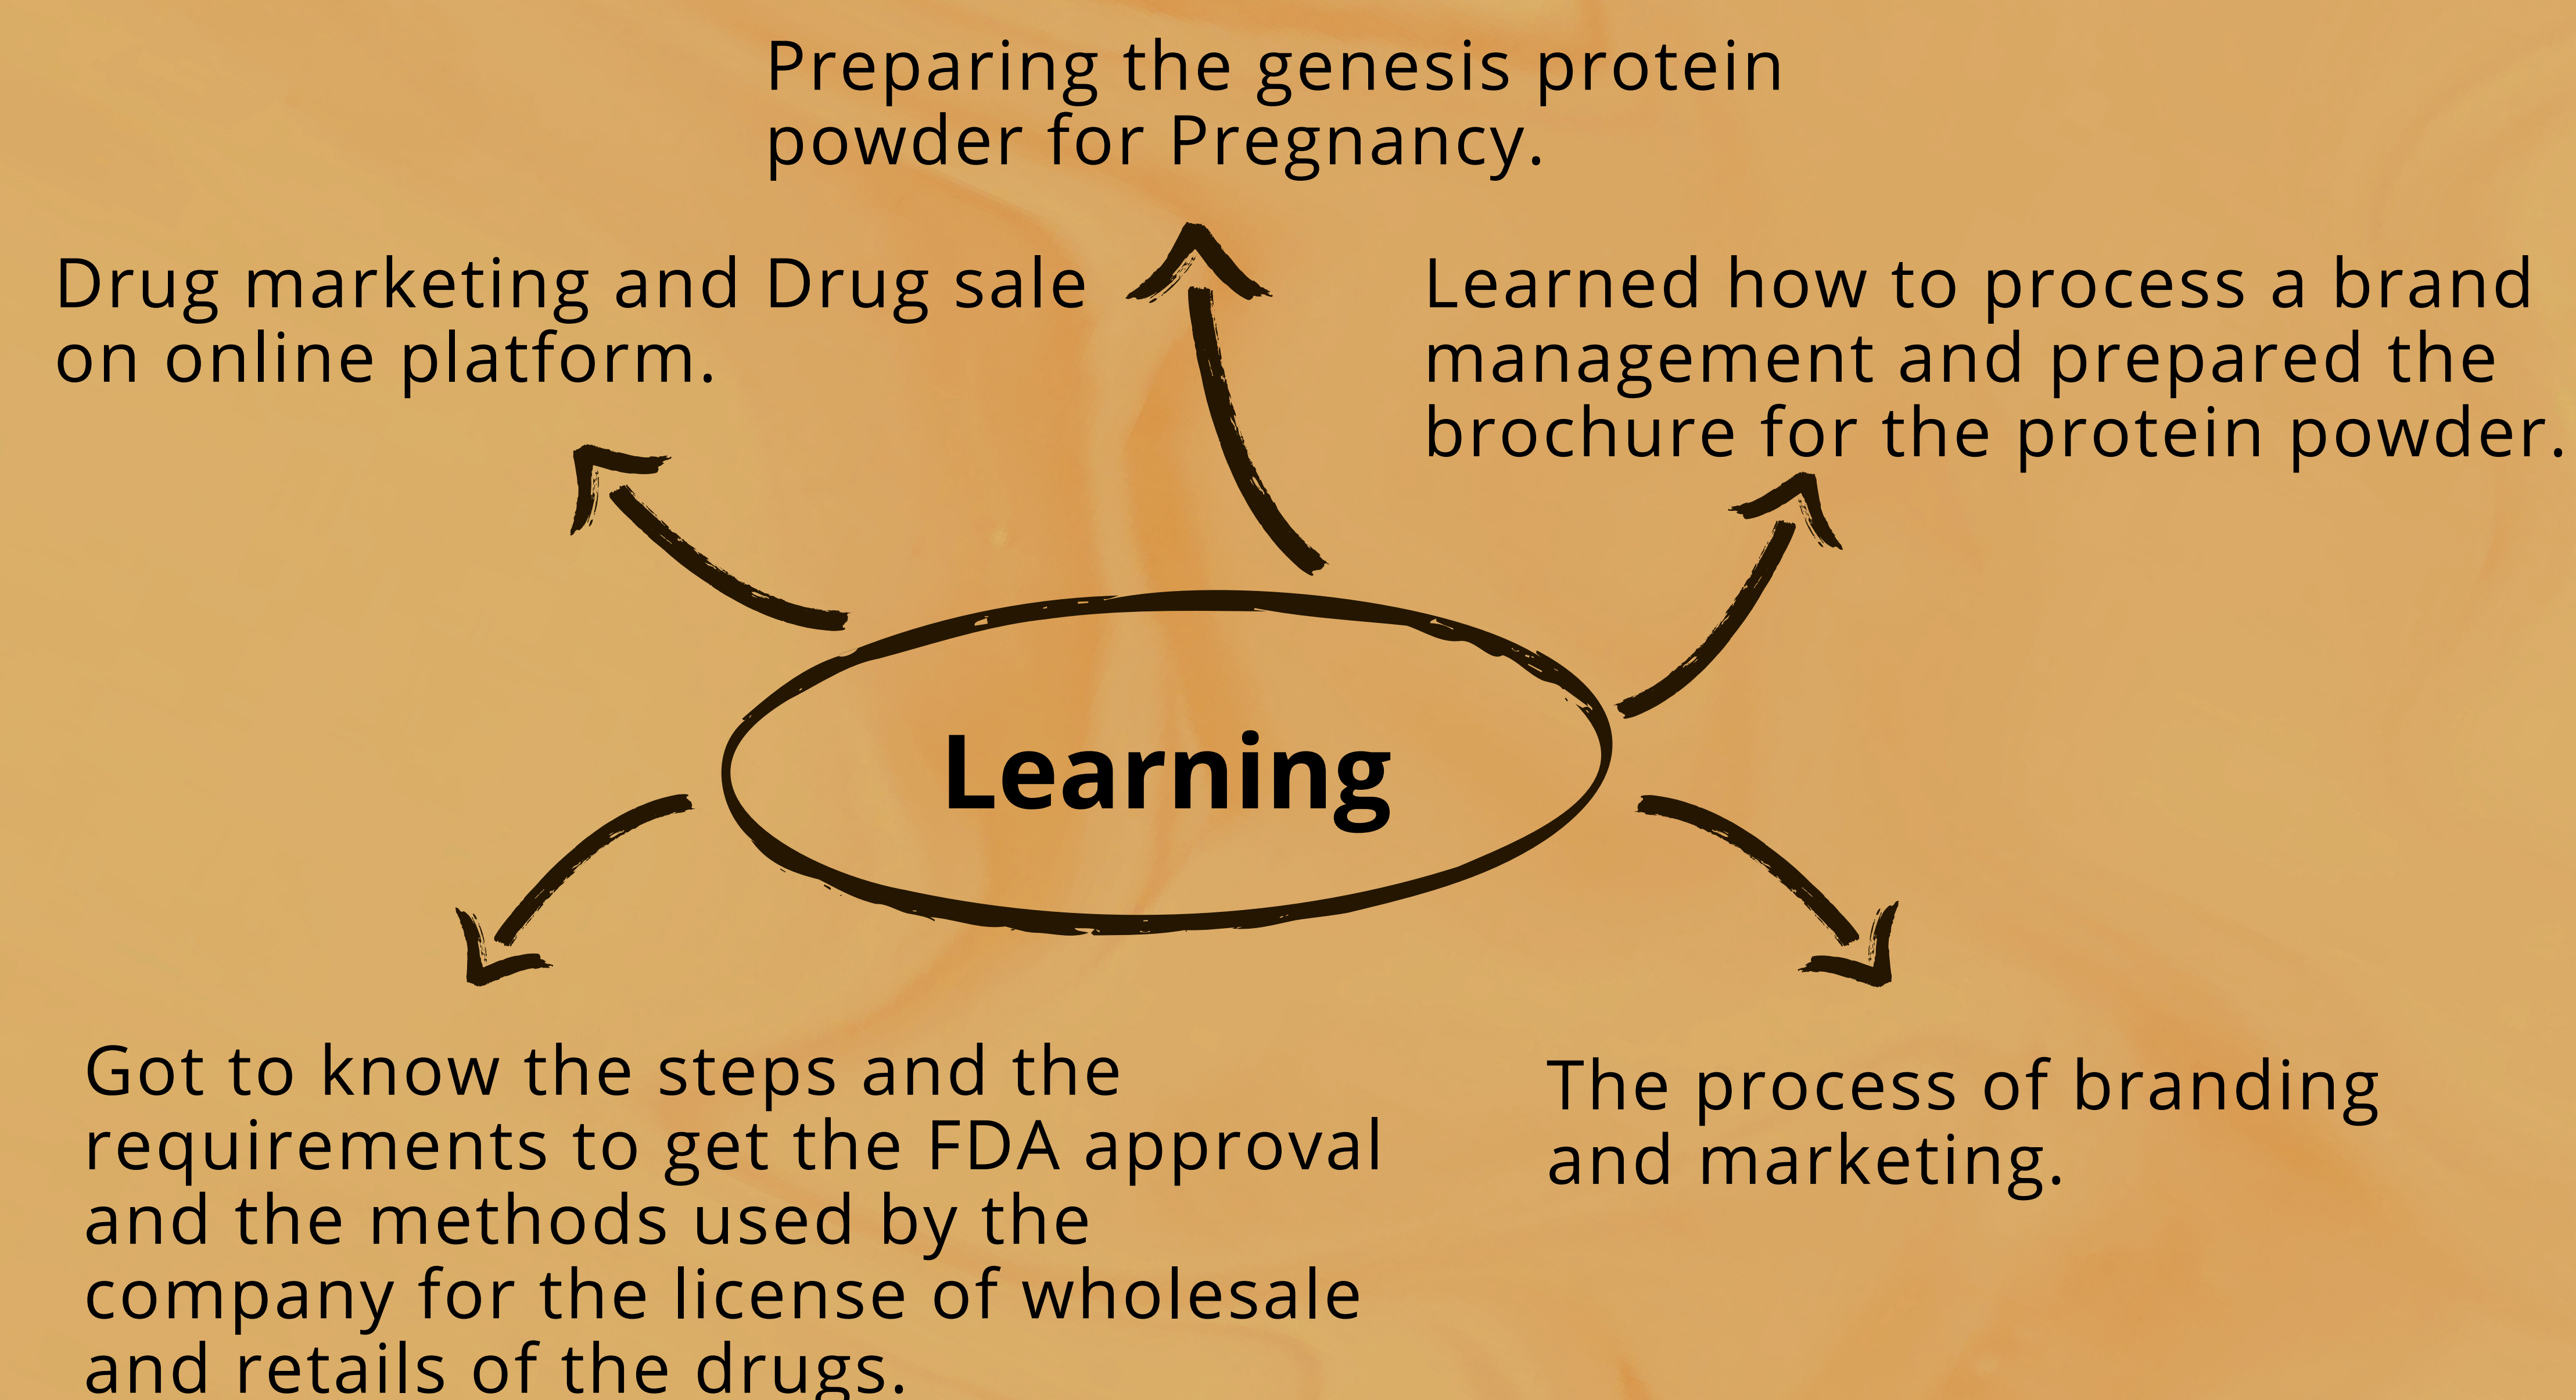

INDUSTRY PROFILE

REGIS HEALTHCARE is the organization which was basically into the covid essentials, including protein powder.

- **Vision, Mission**-To provide the equipments and medications supply to all over people. Make sure that all Doctors and other people receive good quality products and everything and anything under one roof.

This organization was build during the peak of the covid and mainly used to distribute the covid essentials. Earlier they used to supply only Hand Sanitizer then eventually came up with supplying the medical requirement, be it medical devices and Immunity boosters medicines. Recently they receive the FDA license for wholesale and retail of the medicine mainly they been focused in the Anti-cancer drugs. The drugs that was most used to be in supply was -

Zimitib Tab 400mg (Imatinib), Zitomyacin 2 mg Inj. (Mitomycin), Zuvidox Inj 10mg (Doxorubicin), Zinotecan 40mg (Irinotecan) and drugs used in the Gynecology.

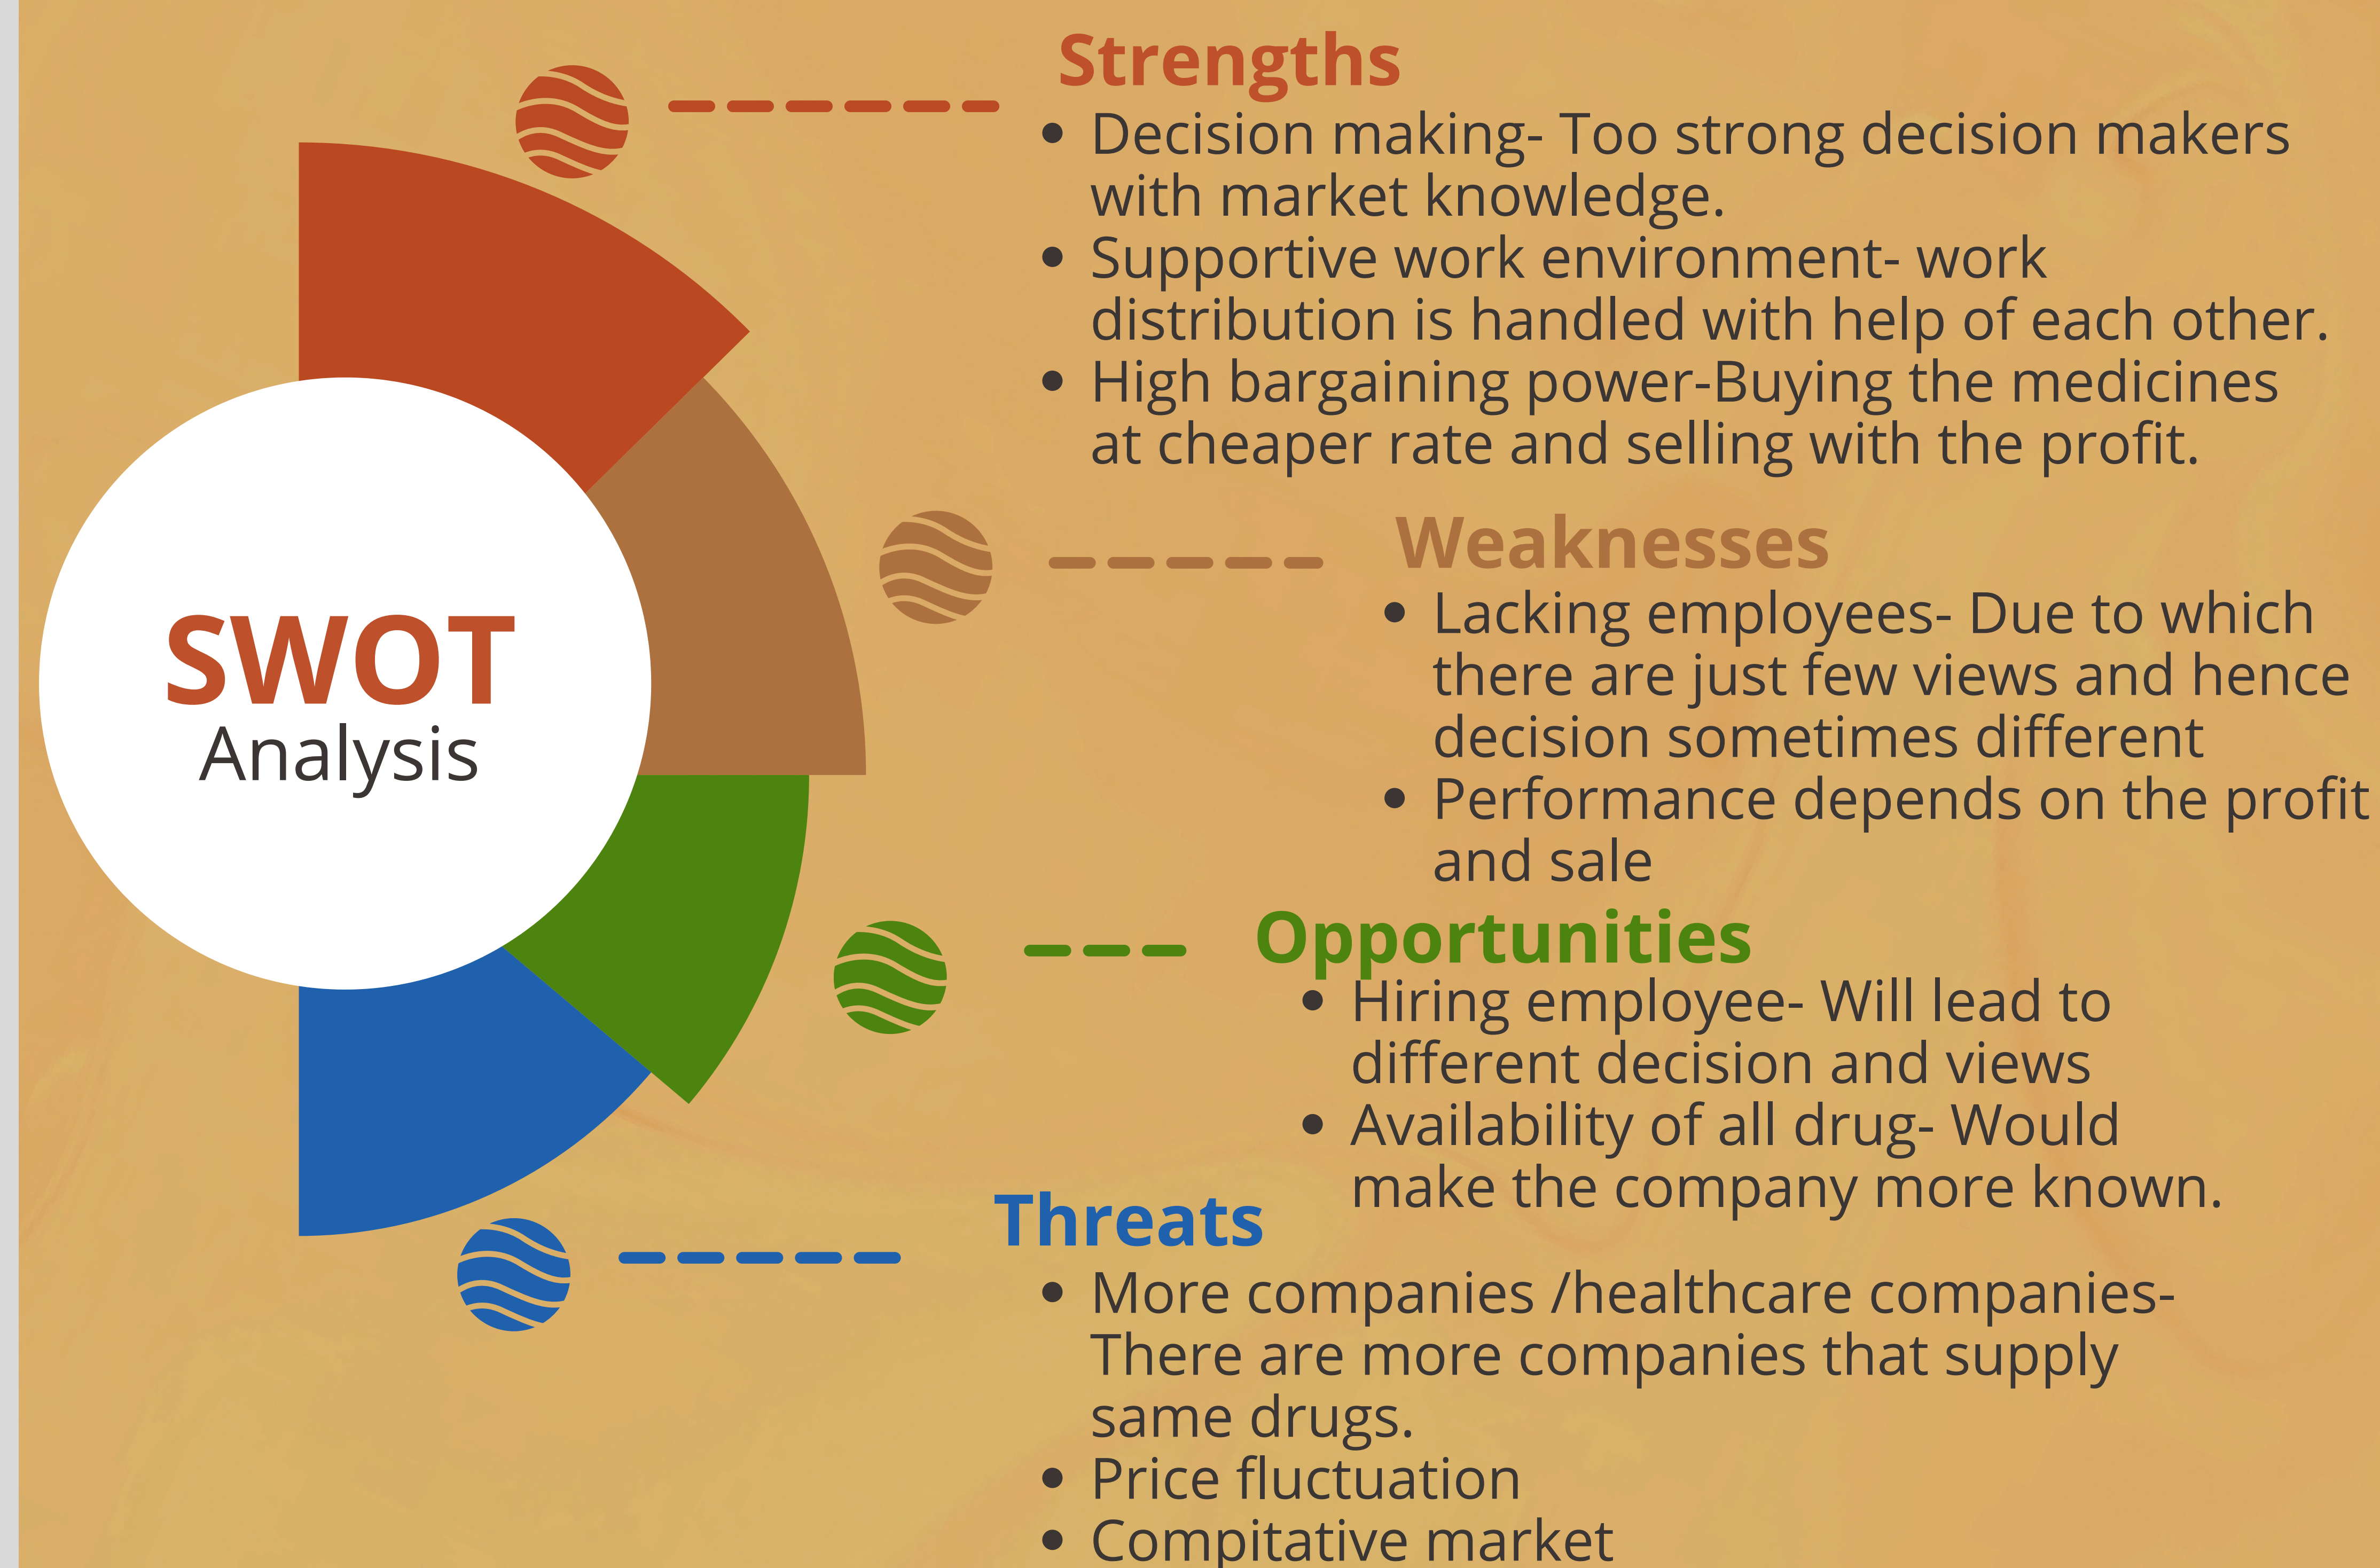

Comparison of therotical and practical exposure

During the internship I came to know all the ups and downs in the company, the financial affairs which is the important requirement and the necessity for the company to understand ,to get the outcome.

Challanges faced

- Unable to form the formulation of protein powder for Pregnancy.
- Couldn't perform sale of the drug.

Suggestions

- Should hire more employees- Hiring of the employees and assigning them to different role will help the company in terms of profit and become acquainted with the people who buy the products
- Should be more transparent
