

Garbage Free City 2022 Desktop Assessment

Presented By: Shubham Singh Roll No: 0344 MBA PM-13

University Mentor : Dr. Surya Prakash Organization Mentor: Rashi Khare

Organization: IQVIA INDIA

ORGANOGRAM

SENIOR PRINCIPLE

WASH HEAD(WATER & SANITIZATION)

SENIOR CONSULTANT

ASSOCIATE CONSULTANT

RESEARCH ASSOCIATE

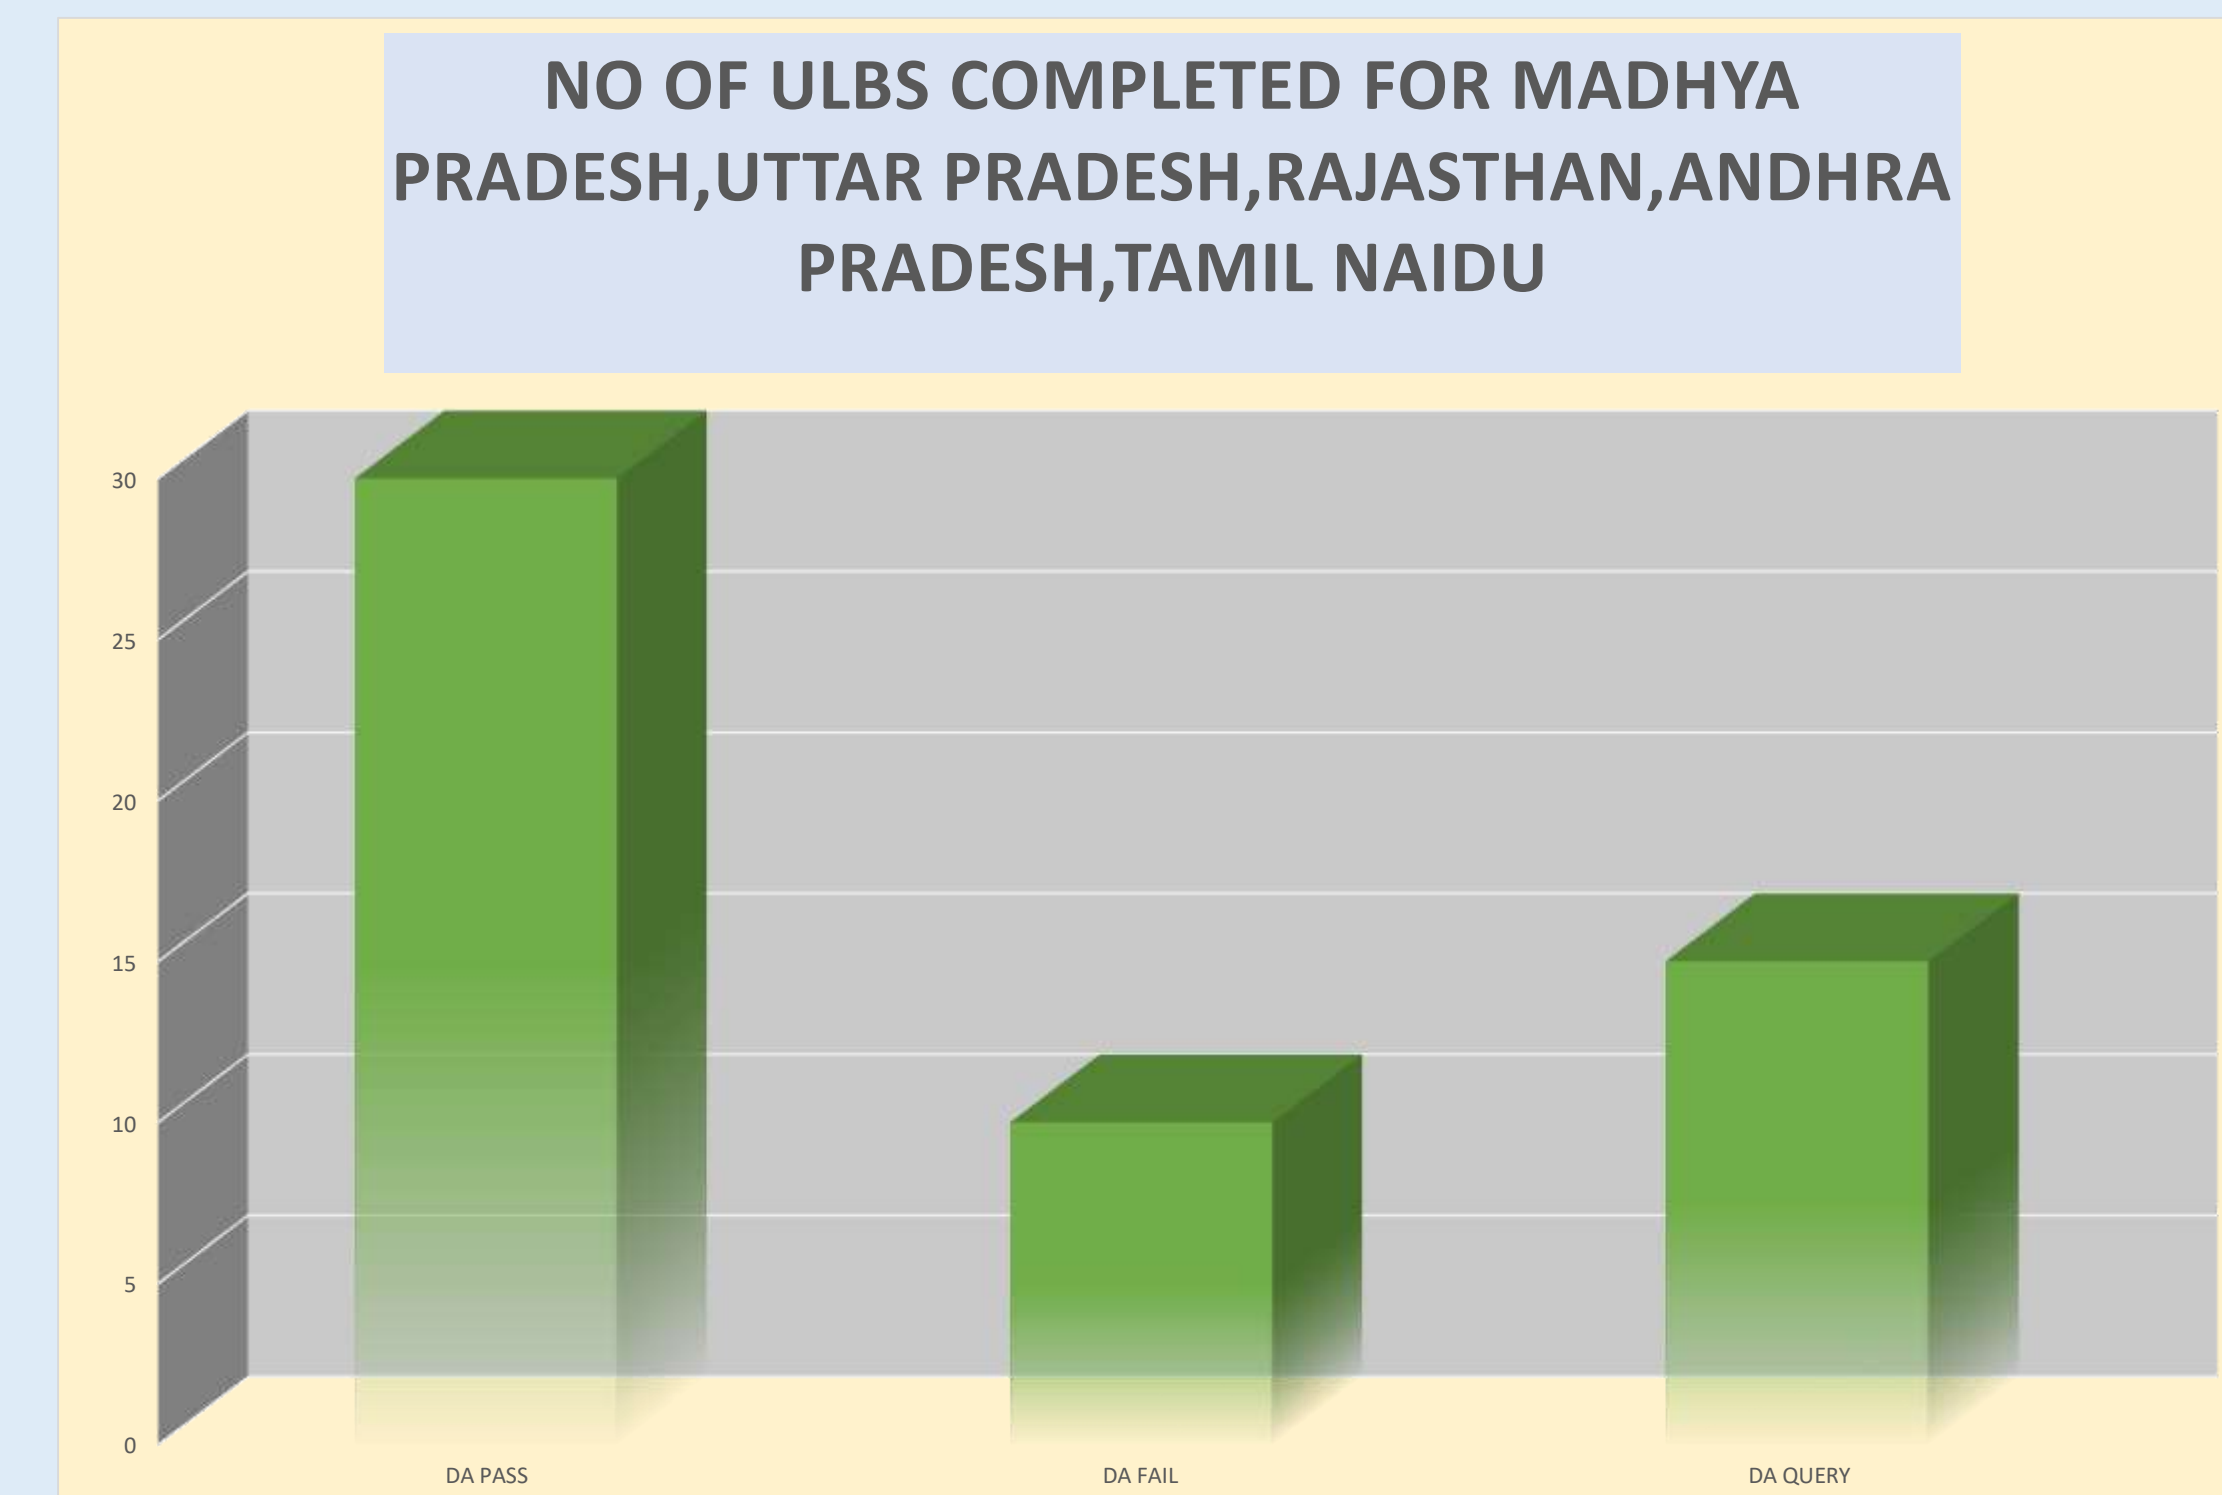

EXTERNAL CONSULTANT

INTERNS

FIELD ASSESSORS

USEFULNESS OF INTERNSHIP

- Gained valuable work experience
- Developed skills
- Built professional networks.
- Gained confidence
- Self-motivation
- Recognized my strength and weaknesses

SWOT ANALYSIS

STRENGTH:

- Raise awareness about cleanliness and its relationship to public health.
- Strong information and training programmes to improve waste management in the division

WEAKNESS:

- Poor dumping management
- Insufficient waste infrastructure(waste bins, waste collection & transfer vehicles)

OPPORTUNITIES:

- Waste disposal using biogas/gobar gas plants/domestic biogas plants
- People's concern about waste problems

THREATS:Insufficient attention to promote environmental research

SUGGESTIONS

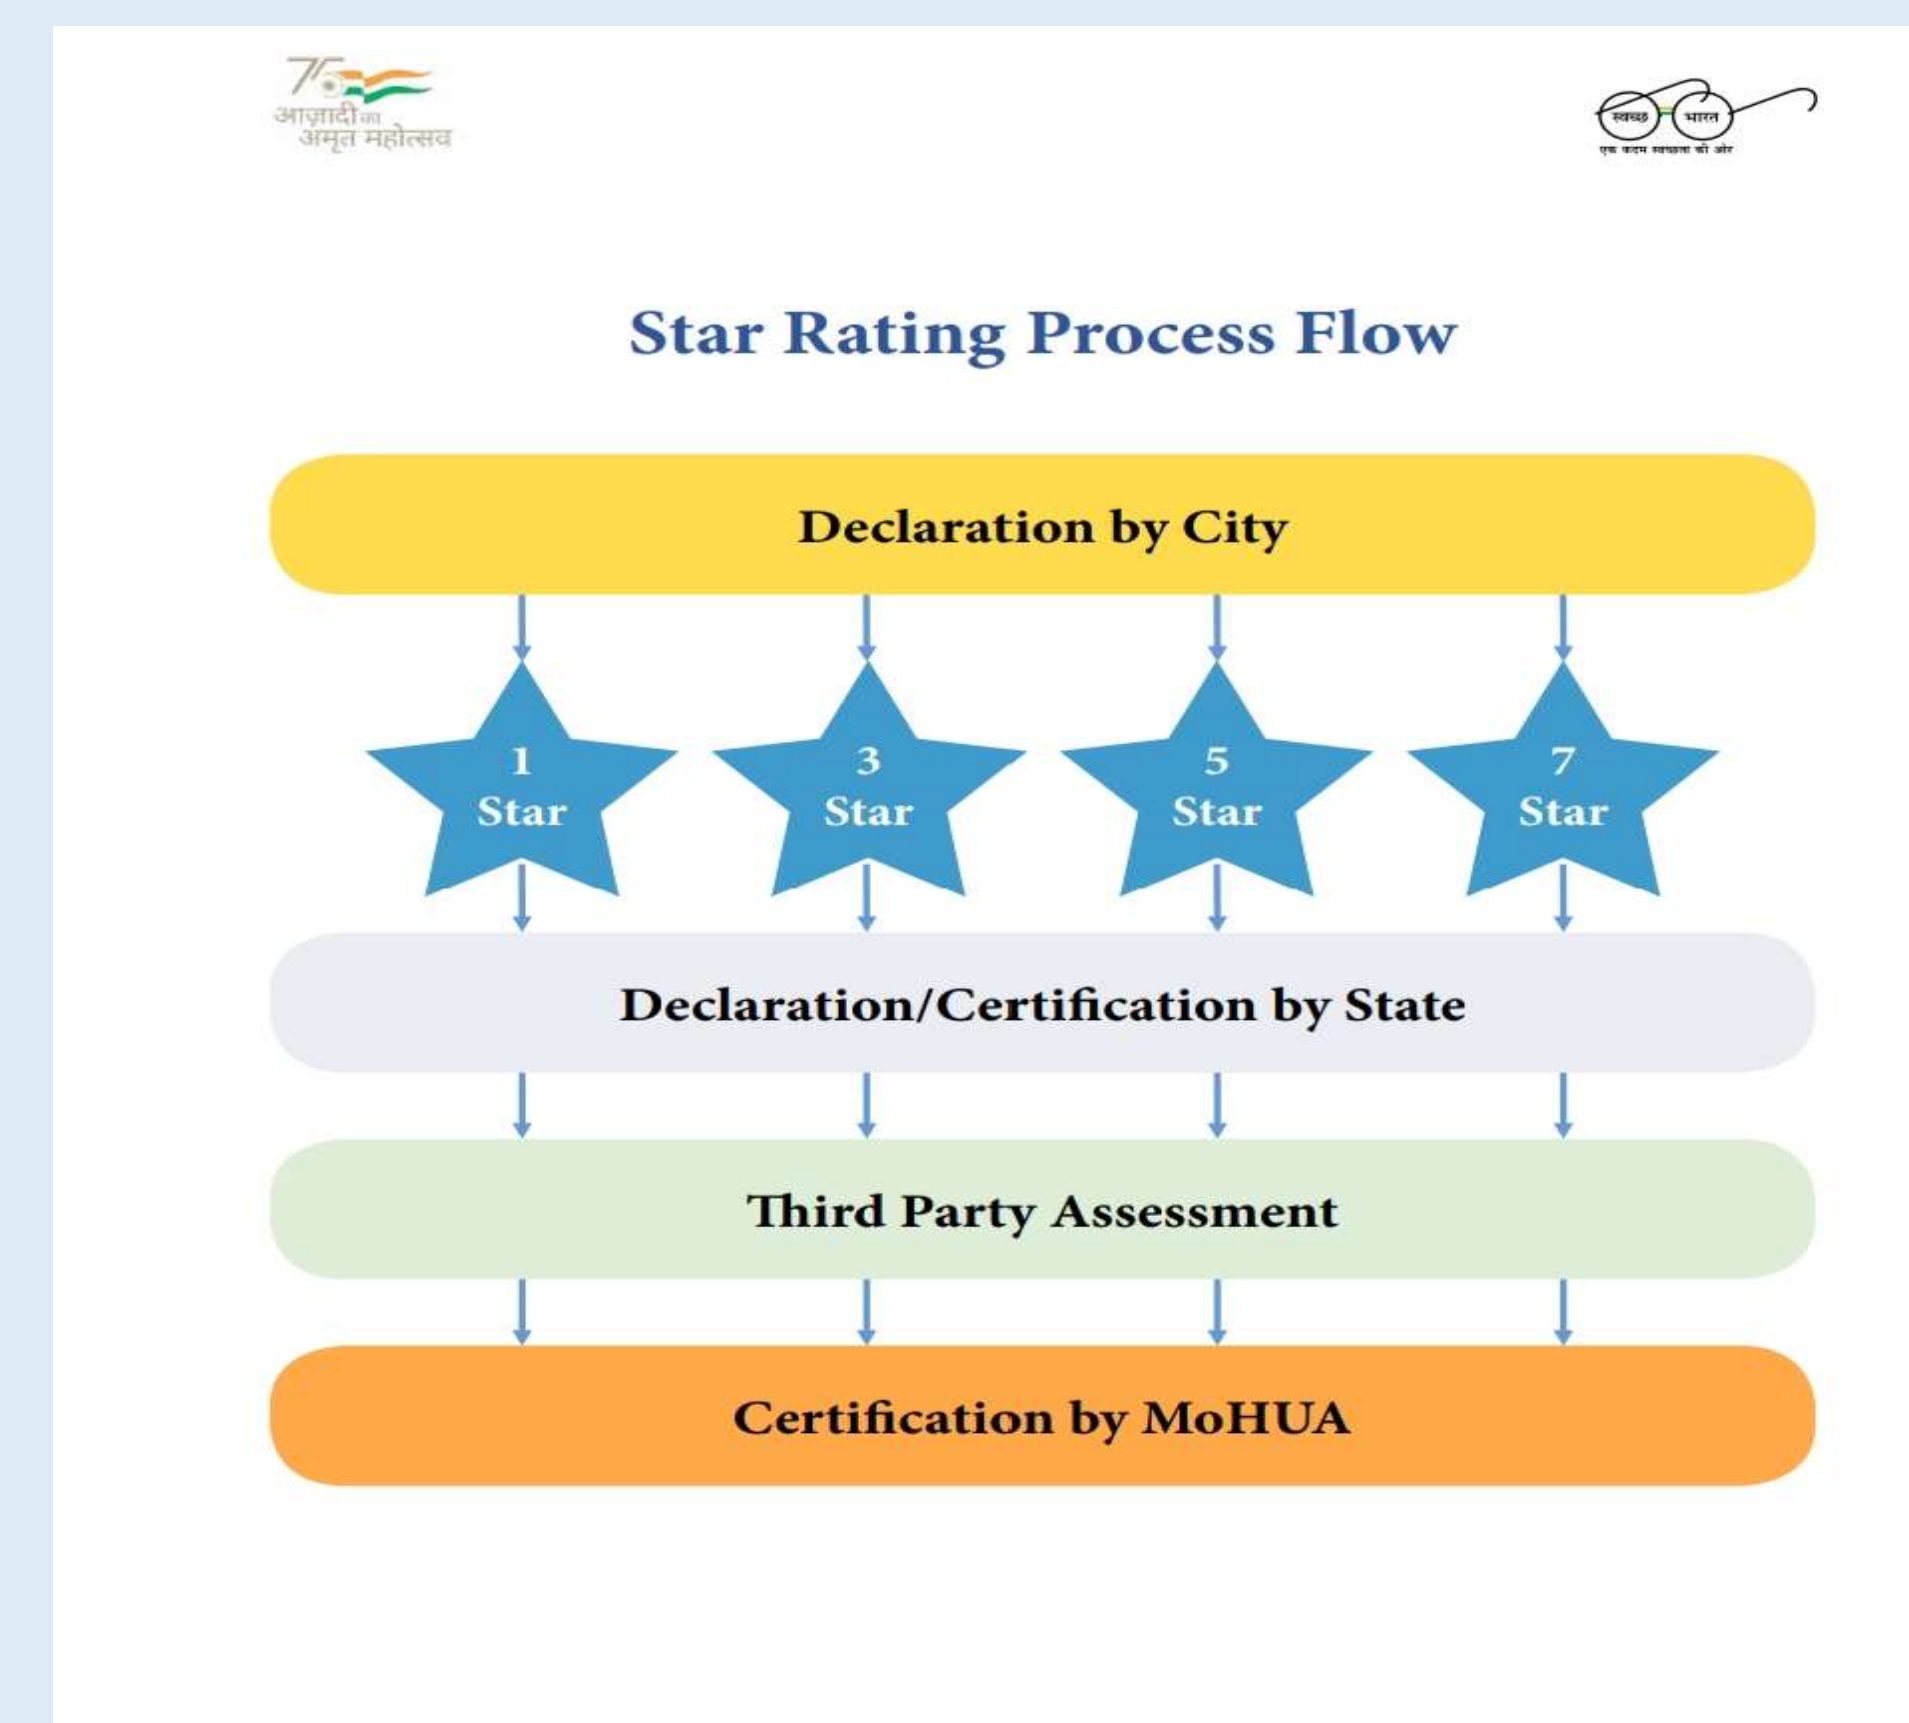

- improve orientation and onboarding
- Should work on building fun memories and rituals.
- Should embody a flexible work culture

CHALLENGES

- There was competition with other interns in terms of completing ULB.
- Lack of automation lead to more manual work
- Time management
- Understanding the office culture

ABOUT PROJECT

- The Government of India (GOI) established the Swachh Bharat Mission (Urban) [SBM (U)] to commemorate Mahatma Gandhi's 150th birth anniversary, with the purpose of ensuring cleanliness, waste management, and sanitation across the country. SBM (Urban) is being implemented by the Ministry of Housing and Urban Affairs (MOHUA)
- Nearly 3597 localities participated in the recently completed Garbage Free Cities accreditation exercise.

INTRODUCTION

- Swachh Bharat Mission (SBM) , Swachh Bharat Abhiyan , or Clean India Mission is a country-wide campaign initiated by the Government Of India in 2014 to eliminate open defecation and improve solid waste Management.
- IQVIA is the result of the 2016 merger of Quintiles , a leading global contract research Organization , and IMS health , a leading healthcare data and analytics provider.
- IQVIA's vision is to bring together advances in data science, technology, and Healthcare expertise to help customers make better decisions and ultimately Improve patient outcomes. IQVIA's mission is to help create a healthier world.

Learning and Value Additions

- I got my training under the desktop assessment department. I analysed the data and maintained databases in excel sheet to ensure the quality and accuracy of data. I analysed data of various Cities of given states below:
 - Andhra Pradesh
 - Uttar Pradesh
 - Maharashtra
 - Rajasthan
 - Tamil Nadu
- Responding to data related queries and keeping track of these.
- Analysing results
- Reporting the results back to the relevant members

THEORETICAL WORK & PRACTICAL EXPOSURE

I had good experience in gaining the practical knowledge while working as I got to learn things in an Interesting manner. I got an exposure of work culture and got opportunity to build professional Networks. Whatever I read in theory helped me to implement them in real world. So theoretical Knowledge helped me in applying it in the practical world but practical knowledge gave me a Better and deeper understanding of the concepts.
