

SUMMER INTERNSHIP POSTER

Name- Aviral Jha , **Roll no-**1268 , **tream-** Hospital and health Management

Faculty mentor – Dr.DK Mangal sir **Industry mentor** – Srikala CS mam

Organization name – NH MMI Multi Speciality Hospital ,Raipur

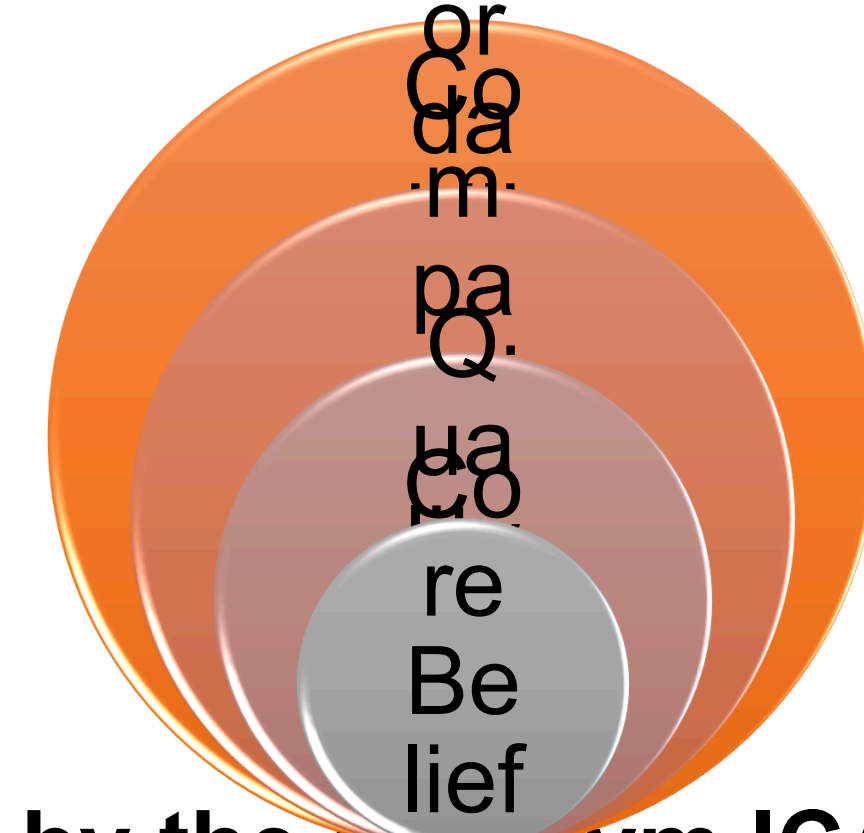

Industry sector profile

Brief History- Took over management of MMI Hospital in order to provide quality healthcare with their quality staff and clinical talent ,situated in tranquil place makes recovery even better

Vision and Mission-Provide quality healthcare, with care and compassion, at an affordable cost, on a large scale

- Narayana Health's core beliefs are signified by the three leaves on its logo

Narayana Health's core values are defined by the acronym ICARE-

Organization structure- 250 bedded,35 OPD chamber, largest dialysis unit in state with 26 bed along with 1.5T MRI,128 slice CT scan with 5 modular OT and specialized ER team for traumas.

Industry description- Founded by Dr Devi Shetty in 2000 having Headquarter in Bangalore, has hospital chain across country with an international subsidiary in Cayman island while having 2 JCI accredited hospital in country..

Learning and Value additions- Gained industry knowledge from career and p/t satisfaction aspect,

- Getting insight knowledge of daily activities of diff depts ,various challenges ,
- Learned the way of collecting, organizing analysis of data
- And moreover helped to improve efficiency of timely task completion, reporting to authorities ,collaborative skills ,inculcation of the habit of working days during five hours.

Difference b/w practical exposure and theoretical knowledge-

Internship helped to implement theoretical knowledge in better professional way,

- To have a better co-relation past and future learnings so that we can have a basic understanding of our work when it will come to officially work under organization.

SWOT analysis- S - highly professional consultants, administrative staff, and allied staff.,

- W**-p/t experiences more delays than usual
- O**- can work on its weakness and can increase its turnover,
- T**-Increased competition with neighbouring hospitals.

Challenges faced during the internship- Taking feedback of some p/t was difficult as they were not interested for conversation

- And also staff being busy for data collection for project while working at same time made it challenging in time manage

Use-fullness of Internship - Internship helps in many ways ranging from the way we perceive the whole scenario of work to the actual working conditions,

- To groom ourselves better in a more professional way.

SUGGESTIONS - In swot analysis ,weakness of the hospital is p/t experiencing more delays ,

- So will suggest improvements by undertaking a token system specific to areas or depts where patient delays are more common.

CONCLUSION- This overall internship experience was an eye-opener to students regarding the perspective of working conditions with whatever was earlier perceived

- Helped in gaining professional knowledge and to understand the career and Its requirements in order to attain a mutual satisfaction level of employee and employer
