INTRODUCTION

As a part of my dissertation, I did my internship as a Supply Chain and Strategic Department, Healthcare Intern at USS Foundation from April 1, 2024, to June 30, 2024.

During this period, I worked on project “Enhancing Efficiency in Hospital Supply Chains: A Project on Material Planning Optimization through Centralized Procurement”.

OBJECTIVES OF INTERNSHIP

- To support my efforts in organizing and coordinating the assignment activities across several business functional areas.
- To actively participate in collaborating closely with the teams in charge of developing products, expediting, quality control, and logistics management to guarantee that all project deliverables are fulfilled.
- To support myself in providing Supply Chain and Strategic Department with information on the state of their work.
- To hone the managerial and leadership abilities that will be necessary for my further advancement within the company.
- To get an understanding of the procedures and processes at the bottom level through field work, enabling me to build my knowledge and abilities from the ground up.
- I hope to gain knowledge of corporate culture, collaborate with coworkers and in teams, support administrators, and hone my analytical and documentation abilities with this course.

ORGANIZATIONAL PROFILE

VISION

Helping humanity is the first duty.

MISSION

- Eliminating Beggary and Distress:** Helping individuals, particularly children, to transition from begging to education and self-sufficiency.
- **Education and Empowerment:** Providing educational opportunities and vocational training to underprivileged children and women.
- **Health and Well-being:** Conducting health camps and distributing free medicines to promote public health.
- **Environmental Awareness:** Promoting sustainable practices such as water harvesting and environmental conservation.

OUR GOAL

- Eliminating Beggary and Distress:** Helping individuals, particularly children, to transition from begging to education and self-sufficiency.
- **Education and Empowerment:** Providing educational opportunities and vocational training to underprivileged children and women.
- **Health and Well-being:** Conducting health camps and distributing free medicines to promote public health.
- **Environmental Awareness:** Promoting sustainable practices such as water harvesting and environmental conservation.

KEY SERVICES PROVIDED BY THE ORGANIZATION

Child Education and Integration:

- Integrated over 650 children who were previously involved in begging into mainstream education.
- Provided comprehensive education including computer skills.
- Motivated children and their parents to value education, leading to regular school attendance and improved future prospects.

2. Women's Empowerment:

- Trained over 2,000 women and girls in skills such as tailoring, mehndi, and beautician courses.
- Empowered these women to become self-reliant and contribute to their families' incomes through self-employment.

3. Agricultural Development:

- Assisted 10,000 farmers in adopting sustainable agricultural practices, improving crop yields, and reducing disease incidence.
- Conducted awareness programs to educate farmers on better farming techniques and water conservation.

4. Health Initiatives:

- Organized over 50 health camps, providing free medical care and medicines to more than 30,000 individuals.

KEY ACTIVITIES/ PROJECTS UNDERTAKEN OTHER THAN DISSERTATION

During this period, I worked on multiple projects like:

Supply Chain Optimization:

- Streamlined the procurement process for medical supplies, ensuring timely delivery and reduced costs.
- Implemented inventory management techniques to prevent stockouts and overstock situations.

Strategic Planning:

- Developed strategies to enhance the reach and effectiveness of health camps.
- Collaborated with healthcare providers to ensure the availability of necessary medical resources.

Research and Dissertation:

- Conducted comprehensive research on supply chain management in healthcare within the NGO sector.
- Analysed the impact of strategic planning on the efficiency and effectiveness of healthcare services provided by the foundation.
- Documented findings and recommendations in my dissertation, providing a framework for further improvements in the organization's healthcare initiatives.

KEY LEARNINGS FROM INTERNSHIP

1. Balancing Efficiency
2. Understanding Inventory Management
3. The Power of Centralized Procurement
4. Importance of Data Analysis in Supply Chain Management
5. Collaboration Across Departments
6. Adapting to Disruptions
