ORGANIZATIONAL STRUCTURE

Home based new Born Care

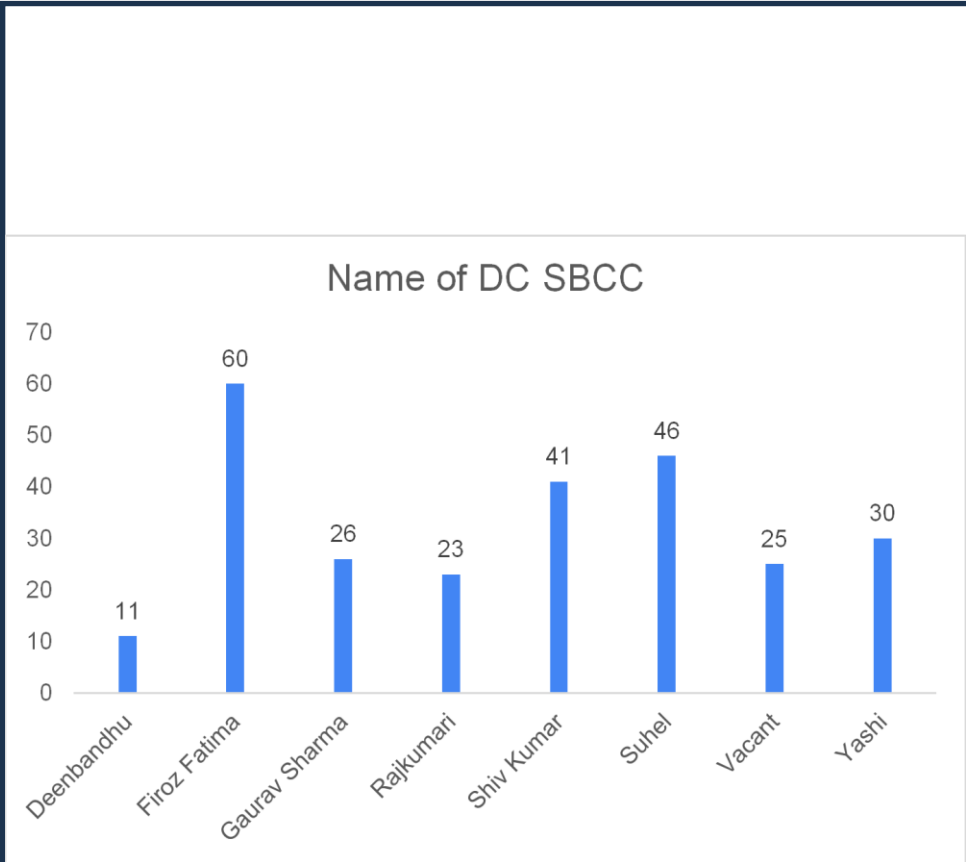

➤ Home Based for young child program was launched in 2018 as part of NHM and Poshan Abhiyan for Promotion of health and nutrition of young child. For reducing child mortality and promotion of growth and early childhood development .

Merits and demerits of home based new born care

Merits	Demerit s
➤ HBNC bring essential healthcare services directly to families ,Reducing barrier related to transportation and access to health facilities . ➤ Lower the Financial Burden of families by eliminating the need of travel and hospitalization .	➤ Community health worker may lack the advanced medical expertise and equipment available and healthcare facilities which can limit the scope of care provided . Quality of care very depending on the training and experience of the health worker . ➤ Limited access to medical supplies , Diagnostic tools , medication in home setting .

FINDINGS OF THE PROJECT

Graph present of Home based new born care

Google earth pro map

I do a google earth pro map .I find out the location like I choose Poornima University . Add new placemark and write P1 After I choose flag to identify the location. After I mark the path and write R1 and show the road map and increase the width Size and colour it to see it carefully . I add Polygon to shade the diagram . I save the image of google earth map in download path

Despatch Register

➤ A company provide a letter and I write a Invoice no., Subject, Date , etc.. in register file . After registered I verify the letter to Varun sir . Anil sir on 2 may 2024 There are 5 letter come and I dispatch the letter in dispatch register . I write the serial no .date Name, address , Place, Subject, Fill no. and Signature .

Way Forward Plan

Continued Monitoring and Evaluation

Environmental indicators , Socio economic indicators, Project implementation ,Compliance Monitoring, Impact Assessment, Outcome Evaluation ,Process Evaluation ,Sustainability Evaluation .

Capacity Building

Training and Skill development , Institutional Strengthening ,Educational Program ,Health and Nutrition ,Economic Empowerment, Environment sustainability , Technology and innovation Advocacy and Policy Influence .

Insufficient funding for comprehensive Program particularly remote areas. Lack of proper infrastructure such as Transportation ,communication and healthcare facilities in rural areas.

Conclusion

Community Engagement and empowerment

Health and Education C
