INTERNSHIP REPORT

Introduction

This report details my internship experience at Ohum Healthcare Private Limited, where I worked on various projects to enhance healthcare management systems. The internship spanned from March 15, 2024, to June 15, 2024.

Project: Increase Adoption of HMIS in the Clinician Community in SMS medical college and hospital, Jaipur

Duration: March 15, 2024 - April 30, 2024

About organisation

Ohum Healthcare is a leader in Clinical Transformation solutions, implementing and supporting Information Systems that enhance healthcare delivery in hospitals and public health communities, including state and central government hospitals.

They developed OhumSky, a top cloud-based integrated hospital management system designed to control hospital costs and improve patient care. OhumSky offers comprehensive solutions for Financial, Administrative, and Clinical Management, and includes OhumBI, an advanced analytics application that elevates hospital and care management program performance to world-class standards.

Objective:

The primary goal of this project was to increase the adoption of the Hospital Management Information System (HMIS) within the clinician community in SMS medical college and hospital, Jaipur

My Contributions:

Data Analysis:

- Collected and analysed data regarding current HMIS usage among clinicians.
- Identified key metrics and performance indicators to measure adoption

rates.

Process Improvement:

- Evaluated existing processes related to HMIS usage.
- Suggested improvements to streamline HMIS workflows for clinicians

Reporting:

- Compiled comprehensive reports on HMIS adoption rates.
- Highlighted areas needing improvement and presented findings to senior management.

Skills Acquired:

- Gap Analysis: Learned to identify and analyse gaps between current HMIS usage and desired outcomes.
- Implementation: Gained insights into effective strategies for implementing process improvements.
- Technical Assistance: Provided technical support to clinicians to facilitate smoother HMIS adoption.

Conclusion:

The internship at Ohum Healthcare Private Limited was an enriching experience that allowed me to contribute to meaningful projects while acquiring valuable skills. The "Increase Adoption of HMIS in Clinician Community" project, in particular, provided me with a solid foundation in data analysis, process improvement, and technical assistance. I am grateful for the opportunity to work with such a dynamic team and look forward to applying these skills in my future endeavours.
