1. INTRODUCTION -

As a part of my dissertation, I did my internship in the research department, Meta 16 Labs Healthcare & Analytics Pvt. Ltd. Bangalore, Karnataka from April 1, 2024, to June 30, 2024. During this period, I worked on a project – ABHA integration into Digital Healthcare Platform.

2. OBJECTIVES OF INTERNSHIP -

- To aid myself in coordinating and managing the project activities across different functional areas within the company.
- To involve myself in working closely with the product development, expediting, quality and logistics management teams to ensure all project deliverables are being met.
- To aid myself in helping the Project Managers in communicating project status updates.
- To develop managerial and leadership skills which are needed for my future growth in the organization.
- To understand the ground level process and procedures by working on field, so that I can develop my skills and knowledge from the grass root level.
- During this course of time, I expect to learn how to work with colleagues, work in teams, assist administrators, grasp organizational culture, and develop analytical and documenting skills.

3. ORGANIZATIONAL PROFILE –

- Meta 16 Labs Healthcare & Analytics Pvt. Ltd. Is a healthcare IT Company dedicated to –
 - Create affordable healthcare IT solutions.
 - Make healthcare solutions easy for & accessible to every stratum of society.
