Conclusive learning:

Give management of natural resources to live a comfortable life by increasing the capacity of the community for a non violent to build an inclusive society.

Organic farming as an alternative economic model to promote a non-violent economy in the poverty alleviation and community for optimum management self-reliance and leadership

Project report :

Introduction: MANAV Jeevan vikas samiti has undertaken various activities to improve the economic condition of the rural communities. in order to promote organic farming techniques among the farmers they have been given training about fertilizers, vermicompost ,organic pesticides, construction of ponds and dams and effective irrigation techniques etc.

The purpose of imparting training these techniques is that the farmers can learn and become efficient in their own work. apart from this ,other livelihood programs like goat rearing ,fish farming etc.

To establish democratic governance for the development of the poor Tribals, downtrodden and underprivileged communities to strengthen and educate women about the election process. To ensure free and equitable elections and to ensure the participation of Delitis ,marginalized communities and especially.

m.j.v.s. started a project in 2012 with the National council of vocation training the objective of this project is to provide employment oriented skills to the youth of the village .

many training programs were organized for them for computer training ,fashion designing driving etc.
