

Objectives of the Study:

- To understand the Integrated Child Protection Scheme (ICPS)
- To review the current status of structures establish under ICPS.

Structure in ICPS at State Level and District Level

Current status of Manpower and Services

Findings:

- The nodal department of ICPS has not sanctioned and appointed the required number of staff which directly hampers quality implementation of the ICPS.
- Due to lack of constitution of State and District level Child Protection Committee and the formation of VLCPC and BLCPC, the monitoring is not happening.
- It was also found that monitoring of the functioning of structures and services are not as per norms
- Lack of participation of the Health Care Institution in this Scheme
- Many districts do not have child care institutions which ultimately make children vulnerable.

Recommendation:

- All the required post needs to be sanctioned and filled by experienced social workers on contractual basis.
- All required Child Care Institutions should be established to cater the diverse need of children at district level.
- To develop the participation of Health Care Institution.

Services	Required	Func-tional
Children Homes (Boys)	33	0
Children Homes (Girls)	33	7
Observation Homes	33	33
Special Homes	0	0
Place of Safety	33	0
Open Shelter	33	37
