1. INTRODUCTION

THE LUPIN STORY

Lupin was founded in 1968 by **Dr. Desh Bandhu Gupta** then an Associate Professor at BITS-Pilani, Rajasthan. Named after the Lupin flower because of its inherent qualities and what it personifies and stands for, the company was created with a vision to fight life-threatening infectious diseases and to manufacture drugs of the highest social priority.

The Lupin flower is known to nourish the land, the very soil it grows in. The Lupin flower is also known to be tolerant of infertile soils and capable of pioneering change in barren and poor climes. The Lupin flower and bean pods have also long been used as food and sources of nourishment, thus protecting and nurturing life.

Embedded in Lupin was a formula for growth. Forty six years on, what has stayed with us is that same entrepreneurial spirit, culture of creativity and innovation and pride in belonging to an industry that makes a difference in the lives of people. We are today a fully integrated pharmaceutical company with an unrivaled position in the US, India and Japan. This position is built on a backbone of cutting-edge research, world-class manufacturing facilities and a truly global supply chain. With the building blocks in place, the future looks brighter than its ever been. We are built to Grow.

CORPORATE OVERVIEW

AN INNOVATION LED TRANSNATIONAL PHARMACEUTICAL COMPANY

Headquartered in Mumbai, India. Lupin limited today is an innovation led transnational pharmaceutical company producing a wide range of quality, affordable generic and branded formulations and APIs for the developed and developing markets of the world.

Dr. Desh Bandhu Gupta's vision and dream to fight life threatening infectious diseases and to manufacture drugs of the highest social priority led to the formation of Lupin in the year 1968. His Vision, his inimitable commitment and verve have steered Lupin to achieving the distinction of becoming one of the fastest growing Generic pharmaceutical companies globally. Lupin first gained recognition when it became one of the world's largest manufacturers of Tuberculosis drugs. The Company today has significant market share in key markets in the Cardiovascular (pills and statins), Diabetology, Asthma, Pediatrics, CNS, GI, Anti-Infectives and NSAIDs therapy segments, not to mention global leadership positions in the Anti-TB and Cephalosporins segments.

The Company's R&D endeavours have resulted in significant progress in its NCE program. The Company's foray into Advanced Drug Delivery Systems has resulted in the development of platform technologies that are being used to develop value-added generic pharmaceuticals. Lupin's world class manufacturing facilities, spread across India and Japan, have played a critical role in enabling the companies realize its global aspirations. Benchmarked to International standards, these facilities are approved by international regulatory agencies like US FDA, UK MHRA, Japan's MHLW, TGA Australia, WHO, and the MCC South Africa. Our Drugs and products reach over 100 countries in the world.

Today, Lupin has emerged as the 5th largest and the fastest growing Top 5 company in the U.S (by prescriptions), the only Asian company to achieve that distinction. The company is also the fastest growing, top 3 pharmaceutical players in India (ORG IMS) and the fastest growing top 10 Generic players in Japan and South Africa. (IMS), Today, Lupin also has the unique distinction of being the fastest growing top 10 Generics players in the two largest pharmaceutical markets of the world – The U.S (ranked 5th by prescriptions) and Japan (ranked 7th). Lupin's Consolidated Revenues and Profit after Tax were Rs. 1,10,866 million (USD 1.83 billion) and Rs. 18,364 million (USD 304 million) for FY 2013-14.

INDIA - DIVISIONS

1. LUPIN PHARMA

The Company's concerted focus on the semi-acute therapy is the crux of the Lupin division, which has enabled the Company to attain market leadership in the Anti-TB segment of IPM. It continues to lead the pack in the anti-TB segment, as well as maintain its presence in the cardiovascular, diabetic, asthma and CNS space. The Lupin division now commands 46% market share in a INR 2,920 million anti-TB market and grew by 7% during the year.

2. LUPIN RESPIRA

The Respira Division is responsible for the Company's business in the Inhalation space, targeting core therapy segments such as Asthma, Allergic Rhinitis and Respiratory Tract Infections and the Chronic Obstructive Pulmonary Disease (COPD) space. Respira continues to garner market share and has emerged as the 2nd largest player in the Inhalation space with a market share of 21.7% (AIOCD MAT Feb 2014). The division ventured into new strategic segment targeting chronic therapy segments within Respiratory such as Idiopathic pulmonary fibrosis and Interstitial lung diseases.

3. ENDEAVOUR

This division focuses on Anti-Infective, Gastroenterology and Osteoarthritis businesses as well as acute therapy areas like Anti-Biotics and Pain Management. It covers almost 16 specialties and engages with everybody ranging from a general practitioner to a gastroenterologist. In keeping with its tradition, Endeavour continues to consistently

outperform the market where it was ranked the 2nd largest player in its participated market, clocking in a growth of 14% during FY 2014 (AIOCD AWACS MAT Feb, 2014).

4. MAXTER

Lupin's Critical Care division focuses mainly on four therapy areas; Critical Care, Orthopaedic, Urology & GP/CP/Surgery based products. As per SMSRC Prescription data, Maxter clocked in growth of 19% while the market growth was just 4% during the same period (SMSRC Mar-Feb 2014 over Mar-Feb 2013).

5. PINNACLE CARDIOLOGY

Lupin India formulation business's flagship division continued to outperform the market with the division emerging as the 3rd largest player within the Indian cardiology market.

The Company continues to expand on its association with the American College of Cardiology (ACC) where we conducted a special program called Rhythm 2013, an Advanced ECG Program in seven locations across India with over 1,500 doctors with international certification participating in the proceedings.

Pinnacle also conducted an Emergency Cardiovascular Care workshop in association with and certification from the American Heart association (AHA) for doctors across different cities in India. The division also conducted and facilitated Innovative Doctor Engagement webcasts in the area of Hypertension and Dyslipidemia.

6. LUPIN CVN

Set up in FY 2010, Lupin CVN is focused on the Nephrology and Urology segments. The Lupin CVN division has grown at a CAGR of 28% over the last 5 years. The division continues to build on its leadership credentials in its participated markets where it is ranked 1st by prescription.

The division continues to innovate by creating specialized webinars and was the first to introduce QR Code Interactive Communications to communicate with doctors and patients.

7. LUPIN DIABETES CARE

India is unfortunately often referred to as the future diabetic capital of the world. It is estimated that by 2030, every fifth diabetic will be an Indian. Since inception, the Lupin Diabetes Care division has been scripting new chapters in its fight against diabetes. Lupin Diabetes Care has consistently outperformed the market and ranked as the 3rd largest player in its participated market with a growth of 28% during FY 2014 (AIOCD AWACS MAT Feb 2014).

The division has created very strong patient care programs like Arogya and The Wellness program. The Arogya diabetes program is a first-of-its kind initiative to screen 37,000 patients with over 2,000 doctors participating across India. It has not only enabled diabetes and hypertension screening and diagnosis but also covers lipid and renal profile and thyroid screening for patients. The Tereos Wellness Program (TWP) is an exclusive unique patient support venture where qualified nurses and periodic laboratory testing at the patients door step is ensuring better monitoring of the patient.

8. MINDVISION

Lupin is ranked 8th in the CNS segment, having grown by 7% in FY 2014 (AIOCD AWACS MAT Feb 2014). Mindvision division successfully launched new products in major sub-segments such as Anti-Depressants, Anti-Epileptics, Pain and Stroke. Mindvision enjoys strong brand equity in the Neurology and Psychiatry segment.

9. LUPIN FEMINA

The Lupin Femina division was launched in FY 2009 to spearhead the Company's entry into the women's health care segment. Lupin Femina registered a dynamic growth of 134% and launched seven new brands during FY 2010. Lupin Femina also launched two in-licensed products in the Gynaecology segment during the year, namely Faa-20 and Luprolide.

10. LUPIN BLUE EYES

This specialized ophthalmic division of the Company is ranked amongst the top 10 in its represented market within the IPM. The division grew by 48% in FY 2014 as against a market which grew by just 7% (AIOCD AWACS MAT Feb 2014).

Lupin Blue Eyes in association with Eye Bank Association of India (EBAI) launched the 'Punarjyoti' campaign to promote eye donation in the country after death.

11. LUPIN IKONIC (NEURO-ONCOLOGY DIVISION)

Formed in FY 2013, Lupin Ikonic is the youngest division within the Company and the 2nd specialized division to be focusing on Neuropsychiatry and Oncology catering to neurologists, psychiatrists and oncologists

2. Need of the study

The definite or predictable market assessment for particular pharmaceuticals is a key motivator for future innovation. It determines whether, and how vigorously, a profit-based enterprise will further investigate an area for new, improved drugs. An understanding of market dynamics is also critical to determining how drugs can be distributed efficiently. By determining the market assessment of a drug companies can identify the upcoming opportunities for the companies.

Market assessment can be tracked by the collection of specific database in case of pharmaceutical industries in India Doctors and pharmacists are the primary target of industries. Assessment ideas are a very necessary part of business. Every strategy is based on assumption of those factors which are able to affect the market environment.

3. Research Objectives

- To perform hospital wise monthly market assessment of doctor's prescription.
- To perform specialty wise monthly market assessment of doctor's prescription.
- To determine total no. of chemist retailers (area wise) in Jaipur city.

4. Research Methodology

Research Design

Focusing the objective of the present study, a survey was done with the help of a structured questionnaire to collect data about the doctor's prescription in Jaipur. The structured questionnaire was designed to collect information about demographic profile of the respondents such as:

- Hospital Name
- Doctor' name
- Qualification
- Specialty
- Gender
- No. of Monthly prescriptions
- Total monthly cost of prescriptions

Considering the time constraints, the data was collected from Jaipur (Rajasthan) region of India. Convenience sampling methods was used and questionnaires were got filled by personal interview methods.

Research design specifies the methods and procedures for conducting a particular study. A research design is the arrangement of conditions for collection and analysis of the data in a manner that aims to combine relevance to the research purpose with economy in procedure. Research design is broadly classified into three types as:

- 1) Exploratory Research Design
- 2) Descriptive Research Design
- 3) Causal Research Design

I have chosen the Exploratory research design.

Exploratory Research Design

Exploratory research study is also termed as formative research studies. The main purpose of such study is that of formulating a problem for more precise investigation or of developing a working hypothesis from an operational point of view. The major emphasis of such studies is of the developing of discovery of idea and insight.

Sample Design

A Sample Design is a definite plan for obtaining a sample from a given population. It refers to the technique to the procedure adopted in selecting items for the sampling designs are as below:

Sample Size:

The substantial portions of the target hospital was 17 and doctors that are sampled to achieve reliable result are 211.

Universe:

Qualified Doctors and Pharmaceutical Retailers in Jaipur city

Sampling Method:

- Non-probability sampling method : Convenience Sampling

Sample Technique

- Tabulation
- Graphical
- Percentage analysis

5. Collection of Data

Data Collection

The study was conducted by the means of personal interview with doctors and pharmacists and the information given by them were directly recorded on questionnaire.

For the purpose of analyzing the data it is necessary to collect the vital information. There are two types of data, this are-

- Primary Data
- Secondary data

Primary Data

- I used primary data through Questionnaire method.

6. LIMITATIONS OF STUDY

- Doctors and Chemist retailers were not ready to give the information easily.
- The time period given for study was very limited.
- The sample size was very small which is may not represent the entire doctors and pharmacist of Jaipur.

7. Analysis And Interpretation

1. Hospital wise monthly total no. of prescription:

2. Hospital wise monthly market assessment of doctor's prescription:

3. No. of doctors covered in whole Jaipur city Hospitals:
