About the Organization

Maharao Bhim Singh (MBS) Hospital, located in Kota, Rajasthan, is affiliated with Government Medical College, Kota was established in 1992. It's a major tertiary care public hospital in Hadoti Region with a capacity of 750 beds, the hospital serves approximately 8 lakh patients annually.

Vision:
To be a leading healthcare provider in the region, known for its excellence in medical care, advanced facilities, and a supportive environment for patients and their families.

Mission:
To deliver high-quality, accessible, and patient-centric healthcare services in Kota, Rajasthan. This includes providing a wide range of medical treatments, surgeries, and procedures, as well as promoting patient health and well-being through various support services.

About internship

About the Project

Objectives :-

- To analyse existing bed allocation and patient flow processes at MBS Hospital.
- To identify key bottlenecks and inefficiencies in bed management.

Methodology :-

- Data collected from various wards.
- Interviews to gather qualitative data from hospital staff about current practices.

Findings:-

Currently the average BOR of the hospital is 53.50%

Suggestions :-

- A Centralized digital system should be implemented in the hospital for real time bed status across all the wards.
- Flexing staffing arrangement should be made to coincide with times of high demand.

Strength

- Established Tertiary Care center
- Wide range of Specialties & Service.
- Affordable/Free treatment for vulnerable sections.

Weakness

- Overcrowding & Resource Strain.
- Staffing challenges.
- Slow decision making.

Opportunities

- Government Initiatives for healthcare improvement
- Technological adoption

Threats

- Budgetary constraints & allocation challenges
