

INTRODUCTION

An **outpatient (OPD)** is one who receives medical attention at hospital without getting admitted to indoor patient department (IPD); he /she does not spend a night in the hospital.

Inpatient care generally refers to any medical & surgical service that requires admission into a hospital, require one or more days of overnight stay at a hospital.

Radiology department always give revenue to hospital. Radiology is cornerstone of any hospital. It includes x-ray, CT,USG,MRI.

PHC Prevention is better than cure. Detect& prevent diseases at an early stage.

OBJECTIVES: 1.To find out current flow of patient from OPD to IPD 2.To find out convertibility from OPD to radiology & lab.
3.To find out medical, surgical &PHC pt. from OPD. 4. To find out which PHC packages effective.

STUDY DESIGN: QUANTITATIVE

DATA: SECONDARY DATA MARCH

SAMPLE SIZE: CONSULTATION 2359

SAMPLING:NON PROBABILITY PURPOSIVE

METHODOLOGY

STUDY DESIGN: QUANTITATIVE

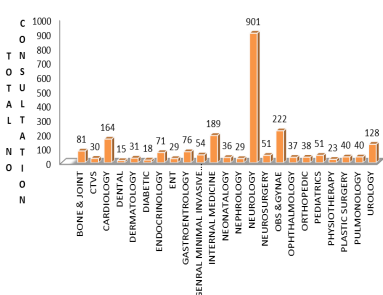

DATA:SECONDARY DATA MARCH & APRIL

SAMPLE SIZE: 550 PHC PT.

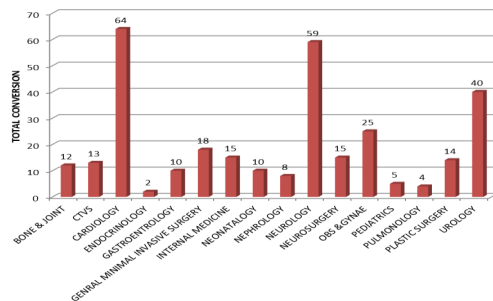

SAMPLING:NON PROBABILITY PURPOSIVE

DATA INTERPRETATION

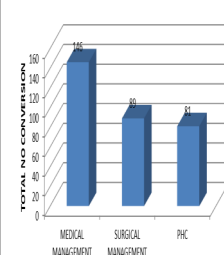

CONSULTATION AS PER DEPARTMENT

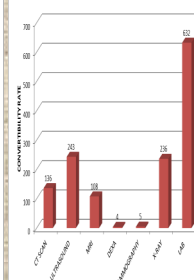

IPD CONVERTIBILITY AS PER DEPARTMENT

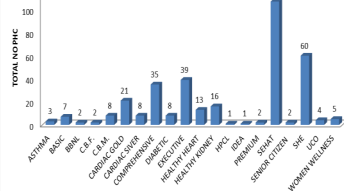

IPD CONVERTIBILITY FROM VARIOUS DEPARTMENT

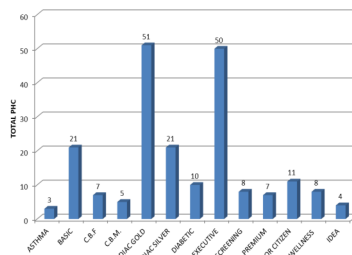

LABORATORY departments have maximum OPD to LABORATORY conversion

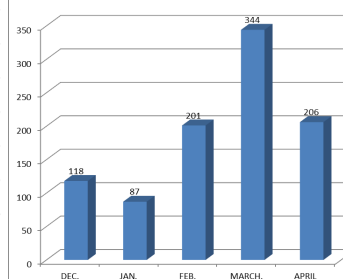

TWO PHC MORE EFFECTIVE IN MARCH 2017

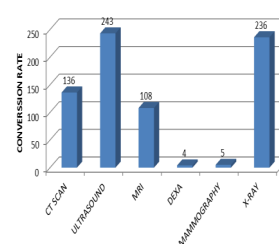

TWO PHC GOLD & EXECUTIVE IMPROVE IN APRIL

MONTHLY PHC

Two procedures have maximum OPD to RADIOLOGY conversion

INTERPRETATION: Neuroscience department have maximum patients.

Cardiology, neurology & urology gave maximum OPD to IPD patients flow.

Sehat & she package were effective in March but cardiac gold & executive more improved in April.

Two procedure in radiology were more effective & gave maximum OPD to radiology conversion.

RECOMMENDATION:

RBH can connect with various government & private health policies.

RBH needs renowned doctors.

RBH can start complete family & children health packages.

RBH can appoint OPD tracker who receive & keeps Xerox of prescription.
