Dr. Shri Gopal Kabra

Born in Lossal, a village of Sikar district of Rajasthan, in 1936, Dr. S.G. Kabra is a graduate in Medicine and Law, and a post-graduate in Anatomy, Surgery and Journalism. He retired on December 31, 1994 as Senior Professor of Anatomy after 31 years of distinguished service in the medical colleges of Rajasthan during which he received several national and state-level academic and research awards. His interest in law and journalism enabled him to file several public interest writs on health-care issues and to work as free-lance medical science journalist.

Besides research papers in national and international journals, he has published 10 books (5 of them short story collections), 10 monographs and over 300 news stories, articles and features. His present interests are Medical Ethics, Medical Audit and Laws Related to Health-care.

He is presently attached to Santokba Durlabhji Hospital, Rajasthan Voluntary Health Association, Indian Institute of Health Management Research and Paras Kuhad/Associates (Advocates), Jaipur.
