

DISSERTATION

SUBMITTED TO: Dr. Sandeep Narula

SUBMITTED BY: Aeman Shaikh

INTRODUCTION

- ▶ Alveofact is used in neonates. Preventive use in premature neonates with a high risk of respiratory distress syndrome (RDS).
- ▶ Respiratory distress syndrome, also known as hyaline membrane disease, occurs almost exclusively in premature infants.
- ▶ RDS is more common in premature newborns because their lungs are not able to make enough surfactant. Surfactant is a foamy substance that keeps the lungs fully expanded so that newborns can breathe in air once they are born.
- ▶ **Alveofact** is indicated for treatment of respiratory distress syndrome (RDS) in neonates.

OBJECTIVE

- ▶ To find out most selling surfactant brand?
- ▶ To find out dose per Kg required of Natural Surfactant?

DATA ANALYSIS

► Do You Prescribe any Natural Surfactant (Alveofact)?

► What are the preferred brand of Natural Surfactant?

Price of the brands?

► How much dose you mostly preferred?

CONCLUSION

- ▶ From this survey I conclude that the ratio of the doctors who are prescribing the Natural Surfactant (Alveofact) is about 100%.
- ▶ Also they use different brands of that product and different doses required as per the condition of the babies. There are different brands available in different prices in the market.
- ▶ They used this Alveofact mostly in Respiratory Distress Syndrome, Breathing difficulties in babies who are premature.

THANK YOU
